GOVERNORS DISCUSS PROBLEMS

Stillman Will Marry Canadian Girl Tuesday

Complete Plans For Brilliant Open-Air Wedding In Canadian Wilds.

"ARMED TRUCE" IS PREVAILING

Wilson Family Objects To Grand Flourish, But Mrs. Stillman Thinks Otherwise.

(International News Service)

GRAND ANSE, Que., July 25.—With an "armed truce" prevailing between the members of the two families, final preparations were made today for the open air wedding of James A. ("Bud") Stillman, Jr., son of the former president of the National City Bank, of New York, and Lena Viola Wilson, who was employed fomerly in the Stillman home.

Out in the open, under the woodland sky, where, perhaps, her own Indian ancestors joined in tribal rites a century or more ago, Miss Wilson will be married tomorrow to the young millionaire.

Although admitting frankly that there has been friction between the Stillmans and the Wilsons over the wedding arrangements, Bud said he was confident that all would be smoothed out before tomorrow.

"Nobody wants to injure either Lena or me, but if they did, it wouldn't matter," Bud declared. "We love each other and are going to be married anyway."

Happiness Threatened

The Wilsons would have preferred a simple wedding on the financial level of their own class. Mrs. Anne Urquhart Stillman, Bud's mother, who has invited many fashionable friends to the ceremony, insisted on more elaborate preparations, and jealousy and friction threatened the happiness of Bud and Lena.

Bud declared today, however, that Lena would part with her family if they made matters difficult for the boy and girl lovers.

"But she says that will never happen," Bud hastened to add. "The Stillmans want no friction with the

Will Prays: 'God Help Preachers, and Their Wives'

(Special To The News)

HOLLYWOOD, Cal., July 25.—Since Judge Lindsey's ceremonial upheaval, preachers are all trying to prove that the old time marriages are the best and point to their own as example.

That's fine, but how about the preachers' wives' opinion? I want to hear from them.

I believe there are some of those deserving sisters who, if they had had a trial marriage, wouldn't be where they are today.

There's a race of people that I would like to see something done for, even before we exterminate Nicaragua.

A friend of the preacher, but a true sympathizer with the wives.

Birger Guilty By Jury Verdict, To Hang On Gallows

Swaggering Illinois Gangster Found Guilty Of First Degree Murder.

GUARD JAIL IN WHICH SLAYER STAYS

(International News Service)

BENTON, Ill., July 25.—Charles Birger, swaggering gangsters chieftain of Southern Illinois, will terminate his machine gunning career at the end of a rope in the yard of Franklin county's little jail here, providing the decree of the jury which tried him for the murder of Mayor Joe Adams, of West Side, is carried out.

This jury late yesterday, after wrangling for 24 hours, found Birger guilty of first degree murder and condemned him to die on the gallows.

Art Newman and Ray Hyland, lieutenants of Birger, and tried jointly with him for the murder of Mayor Adams, were also found guilty and sentenced to life imprisonment.

The fact that Illinois has adopted recently the electric chair as its official method of execution, will not save Birger from the noose. The law

Picks Up $80 And Returns It To Owner

Honesty still prevails in New Castle!

So believes the manager of the Kinney Shoe Store.

It all happened this way:

Saturday morning, Ebon Bane, one of the clerks in the store started for the First National Bank of Lawrence County with $80 in his pocket. He was going for change.

When he got as far as the Regent Theatre the money had slipped out of his pocket in some way. The young man was in a quandary. So he rushed back to the store and told the manager of his loss.

That afternoon there appeared in the NEWS an advertisement for the money which had been lost.

One-half-hour after the paper was on the streets, little Geannie Bloomer, 14, of 1014 West Washington street came into the NEWS office, laid the money on the desk, and received the reward.

Geannie was with her mother, Mrs. Clara Bloomer, when she found the money only a short time after it had been lost. For a while they did not know what to do. Then the mother decided that the best thing to do was to watch the papers to see if an advertisement would appear about it.

And that is how it happened.

Today Mrs. Bloomer and the manager of Kinney's Shoe Store feel very proud of little Geannie. And the community should congratulate her. She is far happier with the reward than she could be with the $80 which did not belong to her.

United States To Make Concessions In Naval Parley

Washington Authorizes Delegates To Accept British Proposal

(International News Service)

GENEVA, July 25.—The United States prepared today to make concessions in an effort to break the tripartite naval disarmament conference deadlock.

American delegates received instructions from Washington authorizing them to accept a limitation of 12 10,000-ton cruisers on the condition that second category cruisers of lesser tonnage should be allowed to mount eight-inch guns.

The British delegates have been insisting that small cruisers shall carry only six-inch guns.

Summer School Is Closed Today

Several Hundred Pupils Receive Credits For Six Week's Work

Summer school of the New Castle schools closed this morning when several hundred pupils received their reports and were dismissed after a six week's session.

The work this summer included work in all grades up to and including the senior year in the Senior high school, according to James M. Hughes, principal of the summer school. Sessions were held in the Benjamin Franklin Junior high school.

Students taking work this summer included those who were permitted to make up a grade in the past year's work or that were allowed to take some work in order to fill the required number of credits for completing a grade next year.

Mrs. Etta Keelan, Mrs. Martha Cox and daughter, Jessie Irene, have returned from a motor trip to Detroit, and points in Canada. They were guests of the latter's sisters, Mrs. Clara Walters and Mrs. Florence Shields of Detroit.

Stormy Weather Causes Flight Be Postponed

(International News Service)

SOUTHHAMPTON, Eng., July 25.—Stormy weather over the Atlantic today caused another postponement of Ctpt. Frank R. Courtney's transocean flight to New York. The British air ace planned a trial flight this morning to test out the motor and the radio apparatus, but said he would not attempt a hop off on his westward flight over the Atlantic until weather conditions improved.

At the Calshot naval air depot it was stated that Courtney's flying boat is in condition for the long flight. The tanks will be kept filled with fuel so that the airman can take immediate advantage of a break in the storms.

Regency Rules Over Roumania

Regency Will Take Over Administration In Name Of King Michael I.

ORDERS COURT IN MOURNING

By O. D. TOLISCHUS.
International News Service Staff Correspondent

BUCHAREST, July 25.—The Regency issued today a proclamation announcing that it is taking over the administration of the country in the name of King Michael, I. Emphasizing that King Michael I, comes to the throne by the wish of the late King Ferdinand, under constitutional principles.

The Regency's proclamation pledges to work for the peaceful consolidation of Greater Roumania and appeals to all loyal subjects for aid.

King Michael I, had ordered his court in mourning for a period of six months.

Hampered By Fog, Colonel Lindbergh Uses Automobile

Famous Flying Ace Reaches Portland, Maine, After Trying Experience

(International News Service)

PORTLAND, Me., July 25.—Undismayed by his failure to reach this city in his famous plane, "Spirit of St. Louis" when fog turned him away for the second time yesterday, Col. Charles A. Lindbergh was making preparations today to leave here after a visit in which he had to rely upon the automobile for transportation.

Leaving his plane in Old Orchard Beach where he made a forced landing yesterday, the flying colonel came here by automobile. He had attempted to land here Saturday, only to be defeated in his efforts by the fog. He then returned to Concord, N. H. from which place he hopped off yesterday.

Colonel Lindbergh's schedule today called for a visit to Concord, the capital of New Hampshire. It was to be the fifth stop in his nation-wide tour under the auspices of the Gugenheim Foundation in the interest of commercial aviation.

Aimee McPherson And Mother Near Parting Of Ways

(International News Service)

LOS ANGELES, July 25.—With the evangelist laying down three proposals for her mother's consideration, Aimee Semple McPherson and "Mother" Kennedy had apparently reached the parting of the ways today.

Mrs. McPherson offered to let her mother remain at Angelus Temple in an advisory capacity; to retire her upon a comfortable income, or to turn over Angelus Temple to her absolutely. If she followed the latter course, however, Mrs. McPherson intimated, she herself would withdraw from the temple.

Meanwhile mother and daughter were reported living separately for the first itmei n years. Mrs. McPherson hurried back to Los Angeles on Saturday when dissatisfaction of the temple membership with her mother's guidance threatened a disastrous schism. She had been campaigning in Illinois.

To Begin Trial Of Three Persons On Murder Charge

Sensational Louisiana Case To Come To Trial During Week.

ACCUSE TRIO OF PLOTTING MURDER

Eighty Witnesses Have Been Summoned To Appear Before Jury.

(International News Service)

FRANKLIN, La., July 25.—Legal battle lines were drawn today in the trial for the lives of three persons accused of the murder of John J. LeBoeuf of Morgan City July 1.

Dr. Thomas E. Dreher, a leading physician; Mrs. Ada Leboeuf, widow of the slain man, and James Beadle, hunter and trapper and the doctor's man Friday, were to come to court to answer to the charges of first degree murder.

The state contends that Mrs. Leboeuf lured her husband, superintendent of a local power company, in a boat in an inundated section of Morgan City on the night of July 1, knowing that two men were lying in wait for him.

Expect Large Crowd

These men, the state charges, were Dr. Dreher and Beadle, according to confessions made by Dreher and Mrs. Leboeuf after their arrest. Beadle fired the two shots that ended Leboeuf's life. With Mrs. Leboeuf in a small boat only a few feet away, the body was cut open by Beadle to prevent it from floating, the confession read, after which it was rowed to shore, weighted down and then taken back to the middle of the lake and thrown overboard.

Excitement was rife in Franklin, the parish seat where the trial is to be held. It was expected that several thousand people from all over the county will try to jam into the courtroom that seats only about 300. The hotels and rooming houses were filled to overflowing and restaurants and cafes have laid in stocks of food.

District Attorney Emile Vuillemont will ask the death penalty for the trio. Former Senator James R. Parkerson, chief defense counsel, has revealed he will ask for a continuance on the ground that the defense has not had time enough to prepare its case. Parker made a similar motion 10 days ago at the arraignment, but this was overruled by Judge James D. Simon.

A panel of 300 talesmen has been called. Eighty witnesses have been summoned.

Tall Hollyhocks Change To Variety Of Color Or Blooms

Mrs. Everett Reports She Has Unusual Colors Of Hollyhock Flowers

With the stories of hollyhocks in the city growing to eleven feet tall or so, this hollyhock story is a little different, although it is still on the same subject.

Mrs. Lottie M. Evereet of 1012 Woodland avenue, Croton avenue district, brought a number of varieties of blooms of her hollyhocks to the News office this morning. The coloring of the blooms were of most unusual color for this type of flower.

The flowers were single and double blooms of beautiful shades of lavender, two shades of yellow, while there were a number of a sort of deep peach or salmon. Aside from these unusual colors of hollyhocks, Mrs. Everett also has the more common colors of red and white.

Week End Death Toll In State Is Eleven

(International News Service)

Pennsylvania highways and streams took a toll of 11 lives over the week-end, a survey by International News Service showed today.

Four persons were downed at Wilkesbarre, and sixteen hurt in automible accidents in Harrisburg.

At Wilkesbarre two persons lost their lives in automobile accidents and eight others were injured.

Philadelphia reported three dead and a score injured in automobile accidents over the week-end.

Pittsburgh accounted for one fatality from an automobile crash and another from drowning. In addition four were hurt there in auto accidents and one at Lancaster.

Pinchot Seeks Congress Seat, Capital Rumor

Former Dynamic Governor Will Not Sit Idle Is Belief Of Observers.

MAY RUN AGAIN FOR U. S. SENATE

Pinchot And Strassburger Possible Opponents For Senatorial Toga.

By S. I. NEIMAN
International News Service Staff Correspondent

HARRISBURG, Pa., July 25.—What about Gifford Pinchot? That's a question which is puzzling Pennsylvania's politicians who have their ears to the ground while county primary fights are in progress.

Pike county's country gentleman, who has retired to his Milford estate to fish—and incidentally to keep his eye on Pennsylvania politics—is an enigma. Politicians concede that the former governor refused to "stay dead" after he faded from the picture by running third in the Republican race for the United States Senate last year.

Pinchot Not Idle

The veteran of many years of state political warfare proved he does not intend to sit idly by while others bask in the limelight of publicity, when he invaded the middle west and dropped a bombshell into investigations of the Mississippi flood disaster by charging army engineers were in part responsible for the tremendous property losses there.

A forest conservationist in international repute, Pinchot proved that he is not growing too old to pitch into controversies with the fire and vigor which characterized his Bull Moose activities and gubernatorial and senatorial campaigns in Pennsylvania.

Just what Pinchot will—and can—do, is a question. His poor showing in the recent senatorial race removed him as a dominant figure in Republicanism, but his old friends claim he still has a hold on the public's imagination.

There is talk on Capitol Hill that Pinchot may seek a seat in congress from the Pike county district. Others say the former governor will be satisfied with nothing less than a senatorial toga.

Colorful Fight

Observers who see Pinchot in the senatorial race suggest that a possible opponent will be Ralph Beaver Strassburger, Norristown publisher and avowed wet. Strassburger is a powerful figure in Eastern Pennsylvania, and is known as a friend of Senator William S. Vare, while Pinchot's stand against the Philadelphian is well known. It is conceded that Vare will be a figure in naming a candidate for nomination as his colleague in the senate, and should Pinchot decide to run for that race, a colorful fight is expected.

It is thought at least that either Pinchot or Strassburger would have to be eliminated early in the selections, the stronger of the two taking his chances against the Western counties' choice in the political caucuses.

It is further pointed out here that Pinchot has retained an experienced Philadelphia newspaperman on his staff since he left the executive mansion here—and as the Pike county man relied upon his power to catch the public's eye as one of his greatest political assets, this may or may not be significant.

British Aviator Ready For Hop To New York City

(International News Service)

CALSHOT, England, July 25.—Captain Frank T. Courtney, who plans an attempted flight across the Atlantic to New York, made a successful trial flight today. His radio apparatus is now working satisfactorily and his hop-off depends only upon the weather.

Matthew Gunton of Highland avenue will leave Tuesday for his summer home near Fairview, on Lake Erie, to spend a few days.

Congressman Is Suicide Victim

Congressman Crumpacker Of Portland, Oregon, Commits Suicide In Ocean.

DROWNS SELF IN SAN FRANCISCO BAY

(International News Service)

SAN FRANCISCO, July 25.—San Francisco was shocked today over the tragic death of Congressman M. E. Crumpacker of Portland, Ore., who came here last week with Speaker Nicholas Longworth of the House of Representatives.

Crumpacker was drowned late yesterday in San Francisco Bay. The body was recovered.

Congressman Crumpacker had been treated Saturday night for poisoning after he had been found on a stret corner muttering incoherently He was taken to the hospital by force after telling police officers he was going to die.

Crumpacker, police learned, had been troubled by a suicide complex for several days.

"Tell everybody good-bye,' Crumpacker cried as he dived into the water, Thomas Smart, his companion, informed the police.

Crumpacker who was 40 years old was born in Valparaiso, Ind., and educated in the University of Michigan and the Harvard Law school. He came west in 1912 to take up the practice of law. He was captain in the army during the world war and deputy district attorney of Nultnomah county (Portland, Ore.) before his election to the 69th congress. He was re-elected to the 70th congress by a handsome majority.

Make Provision For Traffic Over Road At Mercer

Temporary arrangements have been made at the bridge that was washed out Friday night just north of Mercer on the Mercer-Franklin highway so that one-way traffic is allowed without detouring.

This bridge at the foot of the hill on North Pitt street in Mercer was washed out during the cloudburst that visited Mercer Friday night. One of the abutments was washed away by the terrific flood of water. The bridge is on the state highway route 25 between Mercer and Franklin via Stoneboro, Sandy Lake and Polk, and route 88 known as the Perry Highway leading to Meadville and Erie.

On account of the temporary arrangements made by the state highway department one way traffic will be possible until more permanent arrangements can be made.

Council Passes Two Ordinances

One Measure Changes Status Of Portion Of Washington Street

Legislative business was slow in councilmanic quarters today, and after adopting two ordinances council adjourned until Tuesday.

One ordinance amends the zoning ordinances and changes the south side of East Washington street, between West avenue and the Harmony route from a secondary to main business district.

The other ordinance provides for the changing and fixing of a grade on Clarence street, between East Washington street and Stanton avenue.

The council meeting at City Hall was attended by Mayor W. H. Dunlap, Councilmen Burns and Davies. Councilman Tyler was kept busy at the disposal plant and Councilman Louis Genkinger has gone on a vacation for a week.

Farm Relief Cited As Great Western Issue

Iowa Governor Tells Other Executives, This Problem Must Be Solved.

GOVERNORS MEET AT MACKINAC ISLAND

Flood Control Is Also Discussed—Prohibition Is Passed Up.

By GEORGE R. HOLMES
International News Service Staff Correspondent

MACKINAC ISLAND, Mich., July 25.—The controversial issue of farm relief, which already has caused a partial split in both major parties, injected itself today into the annual conference of governors with such virulence as to make certain its being one of the dominant political issues in the 1928 presidential campaign.

The chief executives of two dozen states had hardly settled in their seats here today for their annual conclave before they were regaled with a ringing speech from Gov. John Hammill (R) of Iowa in which he warned his conservative colleagues from the east that either the farmers of the country are going to obtain relief or they are going to wreak havoc with political lines.

Tariff Angles.

Addressing directly those governors representing populous industrial states of the east that profit by a high protective tariff, the Iowa insurgent said:

"In my part of the country the people have been counted on as supporters of the protective tariff. I can sum up the present tariff attitude in the state that we want a method through which tariff schedules can be mad

Strike Looms On New York Lines

Surface, Subway And Elevated Railway Employes Are Being Mobilized

(International News Service)

NEW YORK, July 25.—New York began today to mobilize for the threatened surface, subway and elevated traction strike which has been called for tomorrow evening.

Hope is nearly abandoned that the transportation tie-up can be averted despite the intervention of Mayor Walker and the transit commission.

The municipal department of plants and structures, which operates bus lines, is working out emergency measures and is massing all available buses to cope with the situation.

Taxicab companies are planning to put extra cabs in operation for continuous day and night service.

Thousands of automobile owners are getting ready to turn their machines into temporary taxicabs.

The Interborough Rapid Transit company and the Brooklyn Manhattan Transit company will attempt to maintain a skeleton service with strike breakers. Officials of the association of street and electric railways employes claim that the companies are massing large forces of strike breakers, holding them in nearby cities until the strike gets under way.

I am no beauty judge, not I, no female connoisseur, yet there's a thing appeals to me, in fact I'm rather sure, that every year, the debutantes get prettier it seems, and this year's crop would quite suffice to fill an artist's dreams. But so its been each year that came, each with a prettier crop, I often wonder why it is, and when they're going to stop. Ten years ago the girls were quite an eyeful, pretty all, but look at what we have today, and you would not recall, those days of nineteen seventeen for every year I ween, the girls are classier by far, the cleverest I've seen. It may be that as I grow old, my taste improves a lot, it may be so, I cannot say, it may like as not, but every summer as I glance at debutantes I say, this season has a snappy lot, it's eighty toda

K of P Outing Here Wednesday

Fireworks Display Planned For Shenango Pottery To Be 'Shot.'

Manager Carl Shaner of Cascade park today stated that the pyrotechnical display which he had planned for the Shenango Pottery employes picnic last Friday night and which was prevented by a heavy rain will be "touched off" Wednesday night.

The display will be of especial design according to Shaner and will be witnessed by thousands of persons who attend the four county Knights of Pythias picnic which will be held Wednesday.

According to officials in charge of the K. of P. picnic it is expected that the outing will be featured by one of the largest crowds that has ever attended the four county combined outings.

Union Sunday Schools Picnic

Two Thousand Sunday School Members At Cascade Park

Two thousand members of the Union Methodist Sunday School association, Pittsburgh, are picnicking at Cascade park They arrived here early today on special P. R. R. trains. The picnic will end at 6 p. m.

Two special trains brought the picnickers to the West Side station. They were transported by P.-O. street cars and busses via East Washington street to the park.

The picnickers will leave the park at 6 p. m. and board the special trains for their homes.

The ten men were held by the police for a fortnight while clues regarding a conspiracy for the murder of O'Higgins were investigated.

STILLMAN WILL MARRY CANADIAN GIRL TUESDAY

(Continued From Page One)

Wilsons, and neither do the Wilsons want to break with my family."

The Wilsons are said to resent Mrs. Stillman's control of the wedding plans. They have no desire to pose as "poor relations" of the wealthy Stillmans, but have agreed to attend the wedding.

The genial Father Ephrem L'Ami, who will perform the ceremony, declared that the misunderstanding and bitterness that developed between the two families is fast disappearing. The placid, venerable man wants nothing but happiness for the lovers.

A large wooden platform has been set up for the ceremony in the great cathedral of nature, and, after the wedding, men and women of the countryside will dance upon it with heavy shoes and light hearts.

Mrs. Stillman's plans neared completion today although petty domestic difficulties beset her path from time to time. For instance, the huge wedding cake, which rises in tiers and towering column to the height of a boy, developed a large seizure fissure in its smooth coating of icing and had to be "resoldered" hastily to prevent its collapse. Thirty servants worked incessantly with the decorations.

The bridegroom's father, James A. Stillman, is here for the ceremony. Bud's sister, Anne Davison and her husband, Henry Pomeroy Davison, will arrive today from Locust Valley, N. Y., with Mrs. Ward Cheney, Davison's sister.

BIRGER GUILTY BY JURY VERDICT, TO HANG ON GALLOWS

(Continued From Page One)

provides that only those sentenced for crimes committed after July 1 of this year will be electrocuted.

If Birger hangs, he will be the first person executed legally in Franklin county.

Although the vicinity of the jail where Birger and his two convicted henchmen are held, literally swarms with armed guards to prevent a jail delivery, Benton citizenry breathed a high of relief today. The people are glad the trial is over. They have been under a fearful nervous strain, not knowing what minute Birger gangsters might level their deadly machine guns on the little court house in an effort to rescue their chieftain.

Birger at Ease.

The report late yesterday of the weary, coatless jurors, who have wrestled over the verdict for 24 hours without sleep, was drama at its peak. A deathlike silence spread over the crowd as the jury filed into the box. Hair-trigger suspense! Every face was white.

Birger was the exception. He alone in all that crowd appeared at ease. His reckless bravado did not desert him. As the foreman intoned the solemn words that condemned him to death on the gallows, Birger only grinned.

A canvass of the business men of this and other counties disclosed the fact that merchants had riveted their attention on the Birger trial and were well pleased with the outcome. It seems to be the general opinion that Franklin county law, flaunted by Birger and his "mob" has been vindicated and that Little Egypt, so long in the throes of the struggle for supremacy of southern Illinois gangland, can lift its face to the sun again.

The reign of "King" Birger appears to be ended. His privy councilers, his courtiers, his captains and his jesters have scattered to the four winds.

Wealth unused might as well not exist.

Town Talk

Curb stone is being delivered on North Mercer street, as work of preparing for paving of that street progresses rapidly. Two steam shovels are now being used in the excavating work and this job is being rushed along.

Workmen are engaged in the task of cleaning the outside walls of The Castleton. The protection placed over the stone in the walls is also being removed. It will be but a short time until the exterior of the fine hotel will present a completed appearance. Windows are already hung in all but the top floor.

Scenes of much activity are presented at the site of the new Jameson Memorial hospital near Wilmington avenue, as the work of excavating and grading goes on. This big contract is being pushed right along.

Local candidates apparently aren't giving much heed to the pleas not to placard the highways with cards. Many of the trees and poles along the highways are being plastered with cardboard posters, carrying pictures of candidates with pleas to vote for them.

Brick laying on the repaving of South Mill street from Washington street to the bridge over the Neshannock creek, is completed. The street will soon be thrown open for traffic. This will relieve some of the congestion on Washington street, especially at the East street and Croton avenue corners.

Workmen in the employ of the city are engaged in painting the curb light poles on Washington street an aluminum color. This is quite an improvement. It is indicated that the electric company will paint the steel trolley poles the same color.

Why should the post office advertise for 200 pounds of salt? Do they salt down some of the mail? Is that the reason some of our letters are late in arriving?

No. They want it only that they may use it in their sweeping compound to keep down the dust and purify the floors when they receive their daily cleansing. Edwin H. Crawford says that they mix salt with parrifine oil, sawdust and sand and find that makes a very good sweeping compound.

FARM RELIEF IS CITED AS GREAT WESTERN ISSUE

(Continued From Page One)

effective as applied to our main cash crops. The western farmers in the future will study the tariff as they never have done in the past and will exert their influence in the direction which they determine to be for their best interests regardless of their past political and economic affiliations."

It is useless, Gov. Hammill declared, for eastern capitalists and economists to give lofty advice to western agriculturalists to shift from crop to crop, for he declared that no such formula will solve the problem. In substantiation, he cited the experience of the south in going in for hog production. It helped stabilize the cotton situation, but it wreaked havoc with the western hog industry.

For McNary-Haugen Idea.

"We feel that the program we have supported (the McNary-Haugen bill) is the only constructive one yet advanced. We believe it to be the only economically sound one yet proposed," Gov. Hammill declared.

Evidence that Hammill spoke not for Iowa alone was furnished promptly by Gov. Adam McMullen (R) of Nebraska, who declared that the subject was greater than "any political organization or any individual."

The blunt speeches of the western governors furnished the high light of the opening session of the governors' conference—a gathering which brought together two dozen state executives for round table discussion of their mutual problems, states in every part of the country from Maine to Florida, and from Pennsylvania to Utah, were represented.

Skirt Prohibition.

This year's program of the govornors skirted entirely the dangerous subject of prohibition.

Flood control, in which southeastern and Mississippi river states are interested virtually, and merchant marine, in which the seaboard and Great Lakes states are interested, with farm relief comprises the program at the sessions.

The governors were welcomed to Michigan today by Gov. Green. He touched briefly on thes ubject of taxation in his welcoming address. He declared the governors could well give some thought to the question of whether the general property tax, as at present constituted, had not outlived its usefulness and efficiency.

Gov. Ralph O. Brewster of Maine, chairman of the conference, made a plea for western support for a merchant marine. He declared the existence of a self-supporting American merchant marine indispensable to national welfare, and dilated upon the economic and national defense folly of depending upon foreign shipping.

Among the governors here for the conference are:

Fred W. Green of Michigan, Bibb Graves of Alabama, John E. Martineau of Arkansas, John S. Trumbull of Connecticut, Robert P. Robinson of Delaware, John W. Martin of Florida, Ed Jackson of Indiana, John Hammill of Iowa, Ben S. Paulen of Kansas, Ralph O. Brewster of Maine, Albert O. Ritchie of Maryland, Adam McMullen of Nebraska, Huntley N. Spaulding of New Hampshire, John S. Fisher of Pennsylvania, Lieut. Gov. Norman S. Case of Rhode Island, John G. Richards of South Carolina, George Dern of Utah, John E. Weeks of Vermont, Frank C. Emerson of Wyoming, Len Small of Illinois, ex-Gov. Cary Hardee of Florida and John O. Hull, representing Gov. Fuller of Massachusetts.

DINNER STORIES

"You have studied political economy?"

"I have," answered the senator.

"What conclusions have you reached?"

"Among others, that about the least valuable form of political economy that can be practiced is trying to convince the public that immense saving has been effected by the removal of a few ill-paid government employes from the pay roll."

Barber's Orders

A certain busy printer, whose time is worth money, has a good method of dealing with barbers. As soon as he is seated in the chair, he says: "Cut the whole three short."

"What three, sir?" asks the barber.

"Hair, whiskers, and chatter," replies the printer.

Trade Survey Of Nation Will Be Made Public

U. S. Commerce Department To Bring Out Facts To Aid Prosperity

By ROBERT S. THORNBURGH,
International News Service Staff Correspondent

WASHINGTON, July 25.—Results of a nationwide survey of trade association activities and their relation to economic conditions of the United States, will be made public next month by the commerce department, it was learned today.

Secretary of Commerce Hoover ordered the investigation for the purpose of bringing out facts which he believed will lead to more effective functioning of these aids to business prosperity.

Hoover regards the scientific collection and publication of accurate statistical information regarding commerce and industry as factors in the government's prosperity drive, which eventually will eliminate booms and slumps from the cycle of American business.

Commerce department experts regard the trade association, if legally and properly conducted, as the unofficial means by which accurate business statistics may be collected. In this function the government's statistical service including the commerce department, census bureau, agricultural department, federal reserve board and the treasury, operate in close cooperation with the trade associations.

These services keep the business man constantly in touch with general conditions of the domestic and foreign market, as to production, distribution, sales, prices, demand, exports and imports, the movement of credit rates and other financial developments.

Officials said that economic statistics showing stocks of raw and finished products, probable production, scope of markets and demand are essential and that a carefull development of sources for this information will contribute to the elimination of economic uncertainty.

The survey will contain opinions from the Department of Justice and the Federal Trade commission as to how trade associations may legally aid business.

One of the delicate questions involved is the legality of publication of prices. Justice department officials consider that schedules of commodity prices may be issued provided no forecast is made as to the future. Information aimed at price fixing for any particular industry or commodity is regarded as illegal.

Spanking May Cost Woman $3,000

Diamond Bracelet Is Missing After Spanking Is Administered

(International News Service)

WASHINGTON, July 25.—A spanking which Mrs. Clyde Yarbrough Feder, wife of a Pittsburgh millionaire, gave her five-year-old son Bruce may cost her $3,000.

Mr. and Mrs. Feder, with their two children, came to Washington on a sight-seeing trip. While in front of the White House, Bruce insisted on climbing the fence to get a better view. When Bruce refused to heed Mrs. Feder's commands to get down she administered four or five spankings.

Upon returning to her hotel Mrs. Feder discovered that her $3,000 diamond bracelet was missing.

Bruce declared he saw it fall off her arm when Mrs. Feder spanked him.

"I was mad when you paddled me and didn't say nothing," Bruce told his mother.

Hawaiian Fliers On Way To Capital

(International News Service)

BOSTON, July 25.—Lieutenants Albert Hegenberger and Lester J. Maitland, of Hawaiian flight fame, hopped off from the East Boston airport at 10:42 o'clock today in their three motored plane.

After flying over the city for about fifteen minutes, they continued on in their flight to Mitchell Field, N. Y. The stop at Mitchell Field will be for fuel only and they will then go on to Bolling Field, Washington.

Porter Adams, President of the National Aeronautic Association, and Captain Burditt Wright, of the army air corps, were passengers.

Build New Stack At Post Office

A new smokestack is being erected in the New Castle postoffice on Mercer and North streets to replace the old stack.

The piece, which is being installed by the Flemming Manufacturing Company, is made of sheet iron and is being built from the basement to the roof. The one being torn out has been there ever since 1906, when the postoffice was moved to the present location from South and Mercer streets.

SCHOOL BOARDS WILL MEET THIS EVENING

A meeting of the Mahoning township school board will be held this evening at Hillsille for the purpose of considering bids for the soal supply of the district during the coming term, also the election of three teachers still needed in the district.

The Hickory township school board will also meet this eening at East Brook for the purpose of considering bids for the coal to be used this coming school term. Other matters of business will also be up for consideration at this time.

Large Audience At First Christian

Rev. Holcomb Delivers Third Sermon In July Series Sunday Morning

Dr. C. H. Holcomb was greeted with a large audience Sunday morning in the First Christian church to hear the third sermon in the July series which he has been delivering during the month.

Rev. Holcomb's subject for consideration was "The Only Earthly Possession You Can Take to Heaven." The pastor said that there were many things that people would like to take with them to Heaven but are prohibited either because of their nature or diivne command. Some would like to take their gold or cherished possessions both animate and inanimate.

Rev. Holcomb spoke especially of the training of children in the right manner and the responsibility of parents. He deplored the fact of the many Atheistic Clubs which are being organized in schools and colleges.

These series of sermons have been much appreciated by the congregation and all have been largely attended.

There have been added to the church 140 members since the first of January and the Sunday school is running larger than ever before.

CONSTABLES MAKE ARREST

Purling Streams Often Dangerous

Now come the days of picnics, auto-camping and outdoor life when the water supply should be carefully considered.

From the Ohio Health News it is observed that the "purling stream" should now be spelled "perling" and the limpid spring should be considered likewise.

Boil all drinking water—even though it be clear and sparkling as dew it may contain deadly typhoid and other germs which you cannot detect.

Use all reasonable precautions to protect health and call your physician promptly whenever it is threatened.

REVIVAL OF THE CONCERT

AMERICAN tourists returning from abroad report a revival of interest in concert music in European capitals, especially in Rome. Music lovers who have considered the subject at all will probably wonder why the revival has not begun here as well.

In this country, for decades, the emphasis has all been on symphonic music. The fame acquired by the Boston Symphony Orchestra and the advertisement which it brought to the city which supported it turned the attention of wealthy men in all parts of the country to this form of music. The consequence is that nearly every large city now has a symphony orchestra, attendance upon which has become an obligation to many persons. The organizations tour widely and the concert goer in virtually every section of the country may satisfy his craving for pure music almost at will.

But the symphony is only a part of music. He would be a bold fellow who said it was the best part. There is something in the quartet, something in the interweaving of the voices of violins, the viola and the cello which evokes a pleasure more subtle perhaps and almost certainly more profound than the gorgeous colors of the full orchestra. The quartet is not universally appreciated, and yet there are those whose appetite for music cannot be satisfied by any other form of music.

The symphony concert never wants for an audience, and it is not likely that patronage would be hard to find for other forms of concert music. Certainly the musical education of any community can not be said to be complete if all the study has been from the symphony orchestra. This does not necessarily mean society is hungry for the old street-corner quartet.

RUSH OF ASPIRING AVIATORS

CONVINCING evidence of the stimulus which recent feats of American fliers have given to the science of aviation may be found in the report of the Bureau of Aeronautics, U. S. Department of Commerce, that more than 2000 civilians have applied recently for physical examinations to determine their qualifications as commercial pilots. The great proportion of these applications have been filed since Lindbergh made his lonely flight across the Atlantic. The rush has been so great that the facilities of the medical office have been strained, and only about 900 persons have been examined thus far. A number of women are included in the list of applicants.

The status of regulation for airplane operators is certain to become a matter of vital importance within the next few years. The federal law requires a license for every operator of an airplane which crosses state borders. To obtain that license the operator must be fully qualified, both physically and skilfully. But the federal act does not invade the sphere of intrastate regulation. Pennsylvania, Connecticut and Massachusetts have closed this loophole by regulating airplanes and their operation within their boundaries. Their example is cited as an inspiration to other commonwealths. It should most certainly be followed.

The airplane is probably as great a menace in the hands of inexpert persons as could be found among conveyances says the Philadelphia Inquirer. When it crashes it not only endangers or destroys the lives of its occupants, but is fairly certain to cause some amount of property destruction where it lands. It is as likely to fall in the midst of a crowded community as in the open fields. In addition to wrecking houses and injuring or killing people in them, the ignition of the fuel which usually follows such a crash is likely to cause a serious conflagration. Reckless aviators who fly low over football stadiums, baseball grounds or other places of public assemblage might maim or kill hundreds of people if their plane fell.

Consideration of these possibilities and recollection of some of the serious plane accidents which might have been avoided by effective regulation is the best possible argument for complete control. Incidentally, prospective aviators should find a great deal of encouragement in the fact that examinations of applicants for licenses from the department of commerce have revealed thus far that about 80 per cent are qualified for private flying, 70 for commercial air transport piloting and 60 for the operation of passenger planes. It is doubtful whether rigid examination of prospective motorists would show higher percentages than these.

In Day's News

Philip R. Love, who is accompanying Col. Charles A. Lindbergh on his countrywide air tour, has been Colonel Lindbergh's most intimate friend and companion ever since the latter took up aviation. Love is a native of Washington and is 24 years old, a youth like Colonel Lindbergh. He entered Brooks Field with Lindbergh in 1924 to take the army cadet flying course. Later he went to Kelly Field, and here, as at Brooks Field, he was a roommate of Lindbergh. Both graduated in 1925 and both specialized in pursuit work. Later both took up the carrying of air mail over the same route. Love is particularly experienced in night flying and cross-country work. In his aviation experience he has covered at least 30 states. He holds a commission in the Army Air Corps Reserve and also holds a commission in the Missouri National Guard.

Mrs. Jack Dempsey fainted when she heard that her Jacky won the fight and she said she hoped Mr. Sharkey was not hurt. The only thing about Mr. Sharkey that was hurt apparently was his ego. Next time Jack gets into a fight his wife had better be prepared to faint a few times again because he will get an awful clouting if he ever goes into the ring with Tunney. That's our prediction and all we know about prize fights is that one often gets licked when two fight.

Newspapers for All

Some idea of the magnitude of the vast business of newspaper publishing, with which every adult person is directly or indirectly interested, is given in statistics showing that there is one newspaper printed every day for every two literate persons above ten years of age; that every day one newspaper is printed for every other family in the United States; that for each of the country's 25,000,000 families there are nine publications of news value.

What is it that settles great prize fights? The beautiful young Estelle Taylor, Jack Dempsey's moving picture wife, says: "I asked God to let Jack win."

That was the decisive factor, in her opinion.

* * *

Jack Dempsey says: "When the referee said to continue the fight, I hooked a short one to the liver and slipped one to the chin and Sharkey went down for the count!"

That's a different explanation.

* * *

Sharkey himself testifies, with many a deep oath, that he was beaten by foul blows, below the belt, and promises to get even.

Possibly prize fighting is not the manly, ennobling sport that it is supposed to be. But Dempsey says: "Sharkey always squawks 'foul'."

You take your choice.

Be all that as it may, Gene Tunney is said to look forward with complacency "to having the same old dish put before him once more, with a million dollars more for a few minutes' easy work.

Professor James Kendall, dean of New York University, says scientists take too much for granted that strange substance, water, which we understand "as little as we understood oxygen 150 years ago." He tells you:

"If the active constituent of air were hydrogen instead of oxygen, fires would be extinguished by sprinkling gasoline on them instead of water and fireproof buildings would be built of solid paraffine."

* * *

A drop of water is a mysterious thing. Magnify its diameter from an eighth of an inch to 100,000,000 miles in diameter, and the molecules of water would become visible, each made up of two atoms of hydrogen and one atom of oxygen, each atom a little solar system in itself, forever indestructible, and existing from all time, so far as we know.

* * *

Because of vast distances inside that drop, you would need a telescope. With it you could see inside of the atom electrons revolving around a nucleus at the center of each atom trillions of times in a second.

Water is mysterious, and so is everything — matter, force and consciousness.

Nevertheless, we get along fairly well. A little knowledge is enough.

Advertising club men praise the transatlantic flyers and they deserve it. Each flyer, leaving his trail of smoke and noise across the ocean, writes most valuable advertisements for this country. These flyers tell the world that America wants to do things, and is able to do them.

And their flying makes others want to fly. Since Lindbergh came home 2,000 young Americans have applied for flying licenses.

Business seems to be good generally, and we are a very clean nation. The company sold $131,776,978 worth of soap.

THE SUN'S MESSAGE

While playing golf with him we passed
A garden gay with summer flowers,
A clump of peonies, thickly massed
And climbing roses over bowers,
The tall dephiniums smiled above
A wealth of bloom the women love.

'Tis strange what men will think and say
Who golf together. I have found
One cannot in a single day
The depth of any mortal sound.
The vein of sentiment runs deep
And most of us our secrets keep.

We stood beside that garden wall
For just a moment ere we turned
Again to strike a little ball,
Then something of my friend I learned.
He cried: 'When all is said and done,
There is a message from the sun!"

"They talk of getting word from Mars
And all the planets in the sky,
The scientists would probe the stars,
And just this minute you and I
Have read in all these lovely flowers
The sun's words to this world ours."

THE WEALTH MAKER

People who pile up billion-dollar fortunes in the steel business, in banking, in automobiles and otherwise are supposed to be the greatest adders to the wealth of the country.

Some years ago, however, John Ruskin wrote about "The Veins of Wealth" in an article in which he held that the true wealth of the nation consisted not in the yellow veins of gold running through the earth, but in the blue veins of human blood.

In other words, men were worth more to a country than natural resources.

Had the Pilgrim fathers, who landed on the bleak shores of New England some years ago landed in Manilla, the Philippines would by this time have been as prosperous as Massachusetts. Take all the Philippines and transfer them to New England and in their stead put New Englanders in the Philippine Islands, in a short time New England would be devastated and the Philippines prosperous.

It is men who make the country. With this in view we consider Senora Esperidiona Chavez, 89 years of age, of Los Angeles, rocking the cradle of her one hundred and sixty-second direct descendant. She has nine daughters and two sons and they are all prolific.

Mrs. Chavez has therefore added to the country more wealth than that of John D. Rockefeller.

Property has to be cared for and property rights to be expected, but the most inestimable treasure of the land is its human beings.

France is supposed to be decadent because the death rate piles up and the birth rate is decreasing. On the contrary, it is faced by prolific Germany with a steadily increasing population.

The most important power in the earth is its out-populating power.

This, in the end, wins more battles than armies or battleships.

The health and vigor of a nation is a better defense to that nation than armies and equipment. No matter how many tools you have, it takes men to use them.

No matter how marvelous and complete is a locomotive, it is valueless without an expert engineer. No matter how good your airplane, you have to have a Lindbergh to make it a success.

In the end, it is always the human factor, and men do well to conserve life above all other things.

Bible Thought For Today

REST WITHOUT FRETTING:—Rest in the Lord, and wait patiently for him: fret not thyself because of him who prospereth in his way, because of the man who bringeth wicked devices to pass. Psalm 37:7.

PRAYER:—Lord, Thou hast given us our hearts' desire and hast not withholden the request of our lips. May we rest in Thee.

The World AND THE Mud Puddles

NEW SLANT AT WAR.

The Right of Monopoly has been construed by the Lawyers of the Ages as belonging solely and absolutely, to Sovereignty; that subjects of the State have no right to monopolize anything is axiomatic. No doubt a monopoly conducted by Judge Gary would be conducted very benevolently it seems according to a copyrighted interview given by Will Irwin, that Judge Gary disclosed to Irwin a plan which he had back in 1911, to organize and regulate the steel business throughout the world—fairly. There was in fact an international meeting of steel men in Belgium, held in 1911, to which Judge Gary was a party, and which considered such a plan. Its purpose failed, because the United States Government was naturally suspicious of an international price fixing organization, and because there was certain laws upon the Statute Books of this Nation "foreninst" the Restraint of Trade, to which such practices would tend.

Judge Gary is quoted by Irwin as saying "We did not intend to fix prices abroad any more than at home; without Government sanction, we could do nothing. If the Steel organization had gone through, there would have been no War in 1914, because the steel men where all against war. When the clouds gathered, the steel men would have met at once and decided,— practically unanimously—that there should be no war, and that they would furnish no steel for war purposes; how long do you think War would last without steel?"

It will probably be news to those steel manufacturers of the United States who profited in the United States by furnishing of war munitions, that such a result would have happened had the International Steel Organization been consummated. Judge Gary is very optimistic. He is past the age when men go to fight. It has been said that a Parliament of men, all of whom were less than twenty five years of age, would always be in a warlike mood, while a Parliament of men, all of whom were more than seventy years of age, would never sanction War. It might be also true that a Parliament of men representing interests who would profit largely by War would be more likely to plunge a Nation into a fight than a Parliament composed of men who had no financial interests whatever to serve in the event of War.

It all goes to show how futile is any effort to destroy the ingrained desire of Humanity to unify themselves, nationally or internationally.

IN NEW YORK

Mexican chili is a glorious dish—when it's Mexican chili. But it is, as yet, a regional dish. There are few cities where it is made and consumed in its full luster.

Where chili is liked, it is a staple refreshment. In Dallas, Texas, chili takes the place of beer, ice cream, and peanuts for a large part of the population. And the chili you get in Dallas is real chili.

New York has witnessed several attempts to put over Mexican chili as a popular dish. Generally the efforts have ended dismally. There was no taste for chili in the big town, the crestfallen promoters said. Somehow I always suspected that the quality of the product offered had something to do with the failure.

Recently two women from San Francisco started a chili enterprise in the theatrical district, on West Forty-ninth street. They called it Chili Villa, and they furnished it just like a "chili parlor" in Dallas or San Francisco. Nothing fancy. And they catered to theatrical folk.

These two women, Mrs. Ethel Lee and her daughter Dorothea, made an instant success. They blew up the theory that New York hasn't a taste for the hot dish of the Mexicans. Theatrical performers, who travel a great deal and cultivate a cosmopolitan taste in food, have taken chili to their bosoms with enthusiasm.

Chili isn't a proprietary food, and if it isn't patented or copyrighted. Others will follow the success of the Lees. And when New York finally cultivates the real chili palate, it'll be a congenial haven for all tourists from the southwestern states.

A buff flannel suit with broad stripes adorned a natty fellow I met on Broadway today. Just above the breast pocket of the coat was the owner's monogram, embroidered in bright blue, a medallion about twice the size of a dollar.

I wondered. Why are monograms anyhow? And why should anybody wear his monogram on the outside of his clothes?

Did anybody ever spell out a monogram? I confess I've never been able to decipher one, whether on an automobile door or on a girl's tennis outfit.

If a man wants his initials on his coat, why not have them worked out so they can be read? And why not his whole business card, as well as initials. Why not? I don't know.

Coolidge Regalia Brings Controversy

By GEORGE E. DURNO
International News Service Staff Correspondent

RAPIDY CITY, S. D., July 25.—The old business of East being East and West being West as interpreted out here by Eastern newspapermen, isn't sitting so well with the folks who live in this vicinity. They're living in the West and they're proud of it, but they resent the idea that they aren't just as up-to-date in the matters of Paris styles, and in every other direction as the people of the effete East.

The whole controversy—and it's becoming just that, if Western newspaper editorials are any criterion—has been started by the old time Western atmosphere which President Coolidge has injected into the Summer White House and the events surrounding it. For the past week, South Dakota newspapers have been taking cognizance editorially of the "dime novel" brand of "wild west" stuff that has been appearing in dispatches going back to Eastern newspapers. One correspondent was referred to as "a principal New Yorker, who has never been west of Hoboken and who thinks Trenton is out in the wide open spaces."

Pictures taken on July 4, of President Coolidge in full cowboy regalia just arrived in the news reels in Rapid City last night. The audience snickered audibly. Chaps and ten gallon hats are still worn by the cow punchers on the range and when they are competing in rodeos certain of the citizenry pointed out, but when they come to town they wear conventional "store" clothing.

The President has found one defender in the matter of adopting the ten gallon hat as every day headgear. That one is Representative Royal Johnson, Republican of South Dakota.

"The 'ten gallon hat'," he said in an interview in the local paper "is not affected by the people of this section, but it is symbolic of the west. We out here give our distinguished visitors ten gallon hats in much the same way that Eastern guests are given keys to the city. Of course New York couldn't adopt this practice without opening a municipal hat factory."

Leonard Skeggs Talks To Rotary

Youngstown Man Is Speaker At Noon Hour Meeting At Fountain Inn

Leonard Skeggs of Youngstown, vice-president of the Rotary International and a former chairman of classifications for the International gave a straight-forward talk on "Classifications" at the regular noon luncheon of the New Castle Rotary Club held at the Fountain Inn today.

Mr. Skeggs said that the life and growth of a Rotary Club depended on the way that the classification of club was conducted. He said that a man's membership in the club depended upon the classification in the major service which he is rendering. The classification is based on what a man does not on what he is. There is no classification for doctors, lawyers but for medicine and law practice.

In order to hold up the ethical standards of the club and the respect of a community, Mr. Skeggs said that no classification should be made just to elect a prominent man to the club.

In answer to a question of a system of election the speaker said that in their club and several others the system was to have each member mark a ballot of 18 men, this being the primaries. Then at the election 9 of these 18 were elected by ballot as the Board of Directors, then the Board elected the officers of the club, mostly from the directors.

Lee McFate's attendance at the club today made a record of 302 meetings that he had attended.

A large delegation of Rotarians is being entertained by the Boy Scouts at their camp at Kennedy's Mills tonight. Many members of the club are planning to attend with their families. A dinner is being served at the camp at 6:30.

A fine program has been prepared by the boys for their guests. The program will consist of singing, instrumental music and stunts. Those who motor out will find markers to direct them to the camp from the turn at Rose point on the Butler improved road.

Joseph Reed Buried With Military Honors

Funeral Services For Civil War Veteran Largely Attended On Sunday

Funeral services for the late Joseph Reed, Civil War veteran of North Beaver township were conducted from the Bethel United Presbyterian church Sunday at 2:30. The funeral was considered the largest ever held in that community, a great crowd of friends and neighbors attending.

Rev. Robert Hamill of the Mt. Jackson U. P. church was in charge of the services assisted by Rev. S. E. Irvine of the First U. P. church of this city, Rev. Ross Haverfield of Westfield Presbyterian church and Rev. Samuel C. McChestney, returned missionary.

A military service was conducted in Bethel cemetery where burial was made by Post 100 G. A. R. with C. B. Hamilton, commander. Sons of Veterans assisted. The firing squad was composed of Sons of Veterans.

The pallbearers were Harvey Mollenkopf, Covert Fowler, William Reynolds, Dean Lampson, John McCready and Joseph Reed.

Bigamy was once punishable by death.

Lyle G. Emery Is Struck By Auto

Accident Occurs This Afternoon On East Washington street Near Winslow

Lyle G. Emery, 1601 East Washington street, is in the New Castle hospital as the result of an automobile accident this afternoon. At two o'clock hospital attendants had not yet fully ascertained the extent of his injuries.

According to police reports, Warren Farrow, 801 West State street, this city, said he was driving his auto west on East Washington street near Winslow avenue and that Emery stepped from the sidewalk and was struck by his car.

The driver claims that he blew his horn and that after it sounded Mr. Emery took another step forward and the rear of the Farrow automobile struck him.

Boy Loses Arm At Sharpsville

(International News Service)

SHARON, Pa., July 25.—The condition of Thomas Bonaquista, 12, whose arm was blown off accidentally at his home in Sharpsville, was precarious today according to physicians at the hospital where he is being treated.

Thomas and his brother, Tony, 7, were playing with the gun when it exploded. The boy's mother is in Mercer County jail, charged with the murder of Tony Demarco whose body was found with a knife wound in the back on July 18.

The services will be brought to a close in the evening with special services and sermon. Medals will again be distributed and there will also be the kissing of St. Ann which this church has by special privilege from Rome.

Oakmont Home Is Damaged By Blast

(International News Service)

OAKMONT, Pa., July 25.—Revenge was accepted by police as the motive of persons who bombed the home of Edward Caudill here early today.

Caudill, a former investigator for the Pittsburgh Coal company and for the Oakmont law and order league, and his family narrowly escaped with their lives.

Had the bomb been properly placed, police said, the family would have been wiped out. It exploded under a dining room window. The Caudill family was asleep in another part of the house.

Property damage was estimated at $1,000.

Deputy Sheriff Home From Trip

Deputy Sheriff William Reynolds, wife and children of Milton street, and his mother, Mrs. Elizabeth Reynolds of Court street, have returned from a week's automobile trip to eastern points, including Gettysburg, Harisburg, Huntingdon, Fredericksburg, Washington, Arlington, Va., Mt. Vernon, Flintstone, Md., and other points. They had a pleasant time and saw many things of more than passing interest. At Flintstone they were guests of Mr. and Mrs. Thurman Browning, former residents of this city. They returned home by the old National Pike from Uniontown, Pa. At Warrior Ridge, near Flintstone, they saw Warrior creek disappear into the side of a mountian and then by going through Murley's Gap to the other side of the mountain saw it gushing out of the side of the mountain there . They also visited Devil's Cave near Flintstone, which is the mark on which all deeds are based in that section. One of the most interesting sights seen was the 34,000-pound meteor on display at the New National museum in Washington, D. C.

Huge Dirigible Reaches Langley Field On Tour

(International News Service)

LANGLEY FIELD, Va., July 25.—The RS-1, the army's largest dirigible, arrived here today. It is on a trip from Scott Field, Belleville, Illinois, to the eastern seaboard and return.

The ship will fly to Washington tomorrow, and then will fly over New York, the Hudson river valley and the lake region enroute home.

Col. John A. Pagelow, commander, said the RS-1 probably would reach Boston Wednesday. He declared it would not be decided until later whether the ship will fly to Syracuse.

Mrs Stanley C. Moran and son Donald of Park avenue have returned home after a pleasant week's visit with Mr. Moran at Bristolville, O. Mr. Moran is in charge of the Bristolville station during the absence of Mr. Semple who with his family is spending his vacation in Michigan.

Extra-Safe Summer Hygiene When Wearing Sheer, Thin Frocks

By ELLEN J. BUCKLAND
Registered Nurse

FLOWERED chiffons, lovely pastel crepes, sheerest, thinnest frocks!—women wear them now, under their most severe hygienic handicap, in peace-of-mind and safety.

Eight in 10 better-class women have discarded old-time "sanitary pads" for KOTEX, which has the amazing absorbency of 16 times its own weight in moisture—*5 times as absorbent as ordinary cotton pads.*

Kotex also deodorizes. Another important factor. Discards, too, as easily as tissue. Thus no laundry; no embarrassment of disposal.

Get Kotex at any store. 12 in package. See that box you buy is marked "KOTEX"—if it isn't, it is not genuine Kotex

Nearly 4000 Gallons Of Milk Daily Demand Of New Castle Homes

Milk consumption in the city of New Castle was set at 3,650 gallons a day, according to the statement made by the health officer in the annual report of the city departments, which were recently published.

Of this milk, 1,900 gallons are pasteurized, 1,700 are of grade A raw and 50 gallons are high grade certified.

The milk is distributed through 167 milk dealers and comes from 370 dairies in the surrounding territory.

Diseases on Decline.

That communicable diseases are on the decline may be seen from the same report of the health officer. In all, only 753 cases of all sorts were reported, and measles led all the rest by a total of 499 quarantines. There were only two cases of typhoid fever reported.

Next to measles comes scarlet fever with a total of 83 cases, then chicken pox, mumps, whooping cough and diphtheria follow, none of which totalled 50 cases.

New Castle is getting pure food, since there were 712 inspections of meat and fish markets, 647 inspections of hotels and restaurants and 399 inspections of confectionery stores, soda fountains and fruit stands in the past year.

9,527 Garbage Cans.

Nine thousand five hundred and twenty-seven garbage cans, in which are dumped 6,500 tons of garbage aid in keeping the city free from the house fly menace and the diseases which the flies spread. All of this garbage is collected by the city and taken to the incinerating plant where it is burned.

Old Demons Are Now Nervous Breakdowns

(International News Service)

PHILADELPHIA, July 25.—"Life forces which were called 'demons' in St. Paul's time are now listed as nervous breakdowns, inferiority complexes and reflexes," declared Rev. Henry P. Van Dusen, professor of systematic theology at Union Theological Seminary, in an address at the Second Presbyterian church here.

Rev. Van Dusen also asserted that St. Paul's epistles were not at all theological but were merely written to meet special occasions.

Dr. Van Dusen recently was acquitted by the Presbyterian general assembly of disbelief in the Virgin birth.

Mme. Lina Cavalieri Talks On Marriage

Former Grand Opera Singer Believes Artistic Temperament Persons Not Suited For Mating

(International News Service)

ROME, July 25.—Mme. Lina Cavalieri, former grand opera singer and called formerly one of the world's most beautiful women, believes that marriages between persons of artistic temperament usually end upon the rocks.

"I am glad to be free again," declared Mme. Cavalieri today, referring to her recent divorce from Lucien Muratore in Paris. "Artists' marriages are seldom successful even when, as in my case, one withdrew from the stage limelight to help the success of the other.

"But anyway I feel that I did my duty to the end even though misunderstanding engulfed us. When Lucien left me I had only one choice—divorce. I am in Rome only upon a business mission. My residence will remain in Paris.

"I am delighted to visit my native country, since I am an enthusiastic Fascist and devoted to the Duce, (Mussolini) whom I admire, although we never have met."

Mme. Cavalieri is still radiantly attractive although saddened by the melancholy conclusion of her latest matrimonial venture.

New Castle Man Loses License To Drive Automobile

(International News Service)

HARRISBURG, Pa., July 25.—Increased activity of the motor patrol reflected in the list of operators' licenses revoked during the week and made public by the department of highways. Out of a total of 45 revocations 27 were caused by reckless driving.

There were 12 revocations for intoxication and the license of Floyd Johnson of Warren, was revoked for permitting an intoxicated person to operate his automobile.

Only two additional names were added to the blacklist, one for intoxication and one for driving an auto without the consent of the owner.

Intoxication revocations included Leslie Drake, Easton; Clarence Nelson, New Castle; Clarence Turner, Erie; W. S. Kifer and John Gruinger both of Warren.

The license of Stanley Selenski, Wilkes-Barre, was revoked for driving without the consent of the owner and that of Joseph J. Pope, Pittutin for failure to stop and render assistance after an accident.

Reckless driving revocations included George Blake, Lebanon; James L. Mohan, Wilkes-Barre; Joseph Roman, Plymouth; Fred Moffett, Oil City and Ruth Porter, Easton.

Nick Bobelok, Allentown, lost his license because of physical incapacitation.

Grove City Scouts Plan For Camp

Will Occupy Site Along Slippery Rock Creek; Other Grove City News

(Special To The News)

GROVE CITY, Pa., July 25.—The annual encampment of the Boy Scouts of Grove City will be held this year along the Slippery Rock Creek near the location of the scout camp held in the summer of '21 and '22. The scouts under the direction of Scout Executive Foster Jones assisted by E. R. Sinnock of Illinois and formerly with the Clarion-Venango council will leave Grove City by motor August 1 and will break camp August 29. During the month 100 boys will be entertained at camp.

The site of the camp is an ideal one with somewhat of a historical background. The site was originally cleared by Indians. During the camp the scouts will be instructed in scoutcraft and will enjoy the advantages of experienced guidance.

Warren W. Wilson purchased the interest of his partner Andi Bioridi in the college theatre of this place today. The amount of the transaction is not known. Mr. Wilson and Mr. Biordi came to Grove City last summer from Ellwood City.

Mr. Wilson reports that a number of excellent pictures have been booked and will be shown in the near future.

Mrs. J. Clair Vance and Miss Beth Williams of the faculty of Grove City college spent the week end at Union City, Pa.

Ralph Love, formerly of Grove City now with the Standard Oil company at Tampico, Mexico is in Grove City for a few days visiting his mother Mrs. Roda McDowell.

Chief Apiary Inspector C. N. Greene will conduct a lecture and demonstration in Harrisville July 28. The meeting will be held at the apiary of T. V. Porter of Harrisville. Mr. Greene will discuss bees and the production of honey from all angles and those who are interested in bees are invited to attend the meeting. Arrangements have been made to hold the meeting in the auditorium of the Methodist church in case of inclement weather.

Brunettes will never agree that all's fair in love.

Kills Pesky Bed-Bugs Roaches and Ants

Doctors declare that bed-bugs, roaches and other vermin are the most to be feared means of spreading such diseases as consumption, spinal meningitis and other infectious troubles. There is no disgrace in getting bed-bugs in your home, because that can't be avoided. But it is a disgrace to permit them to remain and thrive when it is so easy to get rid of them with the new chemical compound, P.D.Q., which quickly puts an end to these pesky devils.

A Million Bed-Bugs

A 35-cent package of this golden chemical will make a quart of a mixture that is so deadly to bed-bugs that it would kill a million of them if you could get that many together. Instantly it smothers and annihilates the living creatures; coats their eggs and stops them from hatching and multiplying.

Will Not Damage Goods

P.D.Q. will not injure delicate fabrics, clothing, carpets, furniture, bedding, wall paper or woodwork. In fact, it is often used as a deodorizer and disinfectant.

Moths

Impossible for moths to exist after using P.D.Q. Easy to use. A treatment on garments will prevent moths for two years.

For Ants and Cockroaches

Ants and cockroaches stand no chance of surviving a treatment of P.D.Q. It attacks them and their eggs with such force that it kills their whole generation.

P. D. Q. In Liquid Form

P.D.Q. can be purchased in sealed bottles double strength liquid form, with patent spout free. P.D.Q. Liquid can be diluted to make a quart or it can be used pure.

P.D.Q. is marketed in two style packages, Liquid form 50c, ready for use and P.D.Q. Dry form, 35c. Each package makes one quart.

Get P.D.Q. from your druggist today. Your money back if the bugs are not gone tomorrow.

HOUSEHOLD HINTS

BY MRS. MARY MORTON

MENU HINT

When you are baking try to get as much done as possible so as to have food on hand that may be easily prepared without heating the kitchen a great deal. When you bake a berry pie, bake two or three crusts for which you can easily make fillings. Of course, you must consider the size of the family while you are taking this advice. You must not get so much food baked that it will spoil before it can be used.

Cold Sliced Meat
Lyonnaise Potatoes
Beets Radishes
Buttermilk Pie Iced Tea

TODAY'S RECIPES

Lyonnaise Potatoes—Take cold boiled potatoes cut into dice. Heat butter or other preferred fat in the frying pan, fry in it one small onion chopped fine until it begins to change color. Put in the potatoes, sprinkle with salt and pepper, stir well, cook five minutes, taking care not to break them. Do not brown. Just before taking up stir in a teaspoon of minced parsley. Dry by shaking in a hot colander. Serve very hot.

Buttermilk Pie—One cup sugar, three tablespoons cornstarch, two tablespoons butter, two egg yolks, two cups fresh butter milk, one teaspoon lemon juice. Put together in the order given and cook in a double boiler until thick, then pour into a baked crust. Use egg whites and two tablespoons sugar for meringue on top. Brown a little in a slow oven.

SUGGESTIONS

Three Handy Hints

A housewife sends in the following suggestions: Some day when in the kitchen and not too busy, brown a pint or more of flour for thickening soups and gravy and put in a glass jar, and wash and dry a package or two of raisins and currants and put also in glass jars. These are so nice and convenient when you need them in a hurry.

Use a new clean floor mop or long handled brush to dust the automobile and see how quickly it is done.

Cheese Economy

If you will let the American cheese dry out and then grate it for your au gratin dishes, you will find it will go much further than if sliced thinly when fresh. Dried cheese will cook very much better than fresh cheese, also, and is much less inclined to get "gummy".

New Shoes

Sprinkle the new shoes inside with talcum powder. They will be more comfortable during the "breaking in" process.

Paraffin

Did you save the paraffin from the preserves and jellies? It can be washed and melted again this summer now you are doing up your new stock of jellies and jams.

Gives New Life

If the maline scarf has become limp and bedraggled, use a solution of gum arabic to rejuvenate it. Try one teaspoon of powdered gum arabic in one pint of hot water, let cool and dip in the maline. Dry, and if not stiff enough, dip again. Press with a warm iron while still damp.

Lemon Leaves

Plant the lemon seeds and treat them as house plants. They grow into pretty shrubs, whose leaves may be used for flavoring. A few leaves tied in a cloth and put into the applesauce for a few minutes gives it a delightful flavor. One or two placed in the bottom of the pan before pouring in the loaf cake batter will give a delicate flavor to the cake.

To Wash Wicker Furniture

Wicker furniture should be washed with a strong solution of salt water and placed in the sun to dry quickly. Furniture that needs a new coat of paint may sometimes be made to last without quite a while longer if treated to a salt bath. Washed with hot soap and water wickerwork turns yellow.

GO THROUGH YOUR CHEST

You have put away dresses and gowns that no doubt you have forgotten about. Go through your wardrobe, select the garments that are of value, let us dry clean them for you and your wardrobe is replenished at very little expense. We dry clean the most delicate fabrics without the slightest injury to material or color.

May Electrify Pennsy Lines At Philadelphia

(International News Service)

PHILADELPHIA, July 25.—Indications of possible complete electrification of the Pennsylvania railroad lines in the Philadelphia district were seen today in the announcement of the Philadelphia Electric Company that a 20-year contract had been signed with the Pennsy officials calling for power for the lines already electrified and future extensions by the railroad.

The Philadelphia-Wilmington, Del., and the Philadelphia-West Chester branches are to be electrified next. The changes on these lines will be made as soon as possible.

Canada is said to have a law requiring motorists to come to a dead stop at railroad crossings. And in these times dead stop has a more ominous meaning in that connection than it used to have.—Topeka Daily Capital.

Most Fire Alarms Sent By Telephone

Three hundred and fifty seven fire alarms were answered last year in this city, was made evident in the Annual Reports of the City of New Castle, which just has been published.

Two hundred and twenty nine of these alarms came to the fire companies by telephone, 85 by street boxes, and seven from the police department. Of these alarms answered, 22 were false and 12 were second calls. By chemicals alone, 191 fires were extinguished, while 61 were put out by water alone and six by combined chemicals and water. Sixty seven alarms were answered by the department where no action was needed.

Fire trucks made runs totalling 2,900 miles in going to these fires, and 1,165 gallons of gasoline and 53 gallons of engine oil were used by the department during the year.

Eleven new fire hydrants were placed during the year, and four were moved to different locations.

Rainy Weather Doesn't Hamper Boys At Y Camp

Lads Have Great Time Despite Week End Weather Conditions

Up until Friday the boys at the Y. M. C. A. camp were unusually fortunate in having excellent camping weather. But even with a rainy day there comes lots of fun.

Taking advantage of the softness of old mother earth, a football game was staged by the Roughneck Squad and Dirty Eleven, captained by Phil Chambers and James Sotus, respectively. After all the mud had been cleaned out of the eyes and ears of the players the score was found to be 24-12 in favor of the Roughnecks.

In the afternoon a treasure hunt was held, the prize being won by Francis Sage, Cliff Pollock and Ed Beal. The hunt ended in a close and thrilling race with Sage leading the field at the finish.

Three morning talks were enjoyed by the boys. On Wednesday a talk on "Courage", on Thursday on "Character" and Friday on "Prayer".

The campfires of Tuesday and Wednesday evening have been both entertaining and instructive. The Tuesday campfire was devoted to "How I Can Win My Camp Emblem" while Wednesday's campfire was taken up with tent stunt programs.

On Thursday night the boys listened to the Dempsey-Sharkey fight via the radio from Cripps Hardware company, installed and operated by F. J. McLaughlin, father of one of the Y camp fellows.

On Friday evening a big get-together was held in the recreation tent. This was in the form of a mock trial, at which time some very humorous sentences were passed out by Judge Jack Llewellyn. The cast of the characters follows: Judge, Jack Llewellyn; prosecuting attorney, F. C. Mitchell; attorney for defense, Francis Sage; sheriff, "Hank" Lightner; "12 tried and true", Ed Smith, Cliff Pollock, Bob Muse and Roy Meermans; defendants, James Smith, Sherwood Johns, Junior Brown, Bud Gordon, Phil Chambers, J. Sotus, J. Hodge and Ed Beal.

The camp baseball and basketball leagues have been creating great enthusiasm of late. Following is the baseball standing:

Team	Captain	W.	L.
Skunks,	Bill McLaughlin	3	0
Phantoms,	Tom McLaughlin	1	2
Elks,	J. Llewellyn	1	2
River Rats,	Phil Chambers	1	2

Practically most of the fellows are busy meeting the requirements which are necessary in order to get an emblem. The awards are: First year award, S. M. B. pin; second year award, S. M. B. gold pin, and third year award, S. M. B. silver belt and buckle.

The tent leaders and table leaders at the camp now are as follows: Tent No. 1, Ed Smith; tent No. 2, Francis Sage; tent No. 3, Sherwood Johns; tent No. 4, Kenny Myers, and tent No. 5, Cliff Pollock; table No. 1, J. McCombs; table No. 2, J. Hodge; table No. 3, B. Caven, and table No. 4, B. Frazier.

A 12-mile hike has been planned for Saturday morning with John Leonard and C. F. Mitchell in charge.

Storm Damages Work On Bridges

New Wilmington Construction Work Hit; Other News Of Town

(Special To The News)

NEW WILMINGTON, July 25.—Considerable damage was caused by high water resulting from storms Friday and Saturday on the bridge construction work that is being done on the Mercer road about one mile out of town here. The swollen streams have already torn down one of the temporary bridges and have torn out forms and carried away every loose piece of lumber that was within 50 feet of the stream banks.

Most damage was caused on the second job where two footers which were ready to be poured were filled up again by the breaking of the temporary dams that protected them. A great loss of lumber was also suffered by the contractor on this bridge. It is thought that work will be suspended for three or four days as a result of the flood damage.

MATCH POSTPONED

Inclement weather caused the tennis match which was to be played between the local luminaries and Grove City at Grove City Saturday to be called off. The match, which was to be played on the Crimson college courts will in all probability be played in August.

Having only been formed this summer, the New Wilmington Tennis Club has already proved itself a success in regards to scheduling matches. New Castle, Monaca, Youngstown and Grove City are a few of the matches that have already been scheduled.

NEW WILMINGTON NOTES

Leaving here Saturday, Dr. J. H. Boyd of Egypt and family took an automobile trip to Tyrone, Pa., where they will spend a week with relatives.

After having spent several days visiting in Canada Mr. Dilly, proprietor of a local gasoline station, arrived home Saturday.

Dr. W. Charles Wallace journeyed to Ellwood City yesterday, where he delivered the sermon of the day in the United Presbyterian church.

James McQuiston, one of Westminster's athletic luminaries, who is working on the college coustruction here, visited his folks in Cochranton yesterday.

Remove Depressions From New Paving

Heavy Rain Interferes With Paving Operations Here

Probabilities are that depressions in South Mill street repaving, caused by rain, will have been removed today and tar will be poured by Thorson & Company, contractors.

It is said that depressions have been caused in other streets where brick is being laid and that the contractor, Olsen Company, is removing the depression preparing to pour tar.

Sheriff Will Take Men To Penitentiary

Some Of Subway Workers Fail To Report For Work

(International News Service)

NEW YORK, July 25.—Between 200 and 300 I. R. T. subway workers failed to report to their posts today, more than a day ahead of the expected start of the strike. They reported "sick," according to the company, but Interborough welfare workers went sent to their homes to investigate the cases.

Meantime, at the Interborough's huge transportation yards, about 500 strike-breakers were signed up.

The reporting strike-breakers were all young men and many of them had the appearance of vacationists looking for excitement as well as $10 a day and their keep, for the period of the strike.

Several trucks loaded with ice and food supplies and wagons filled with pies and cakes, provisions for the strike-breakers, were loaded at the big yards during the morning hours.

Roumanians Hold Memorial Services In Philadelphia

(International News Service)

PHILADELPHIA, July 25.—Roumanians of Philadelphia were in mourning today for the dead king, Ferdinand, of the Balkan nation. Georges Cretziano, Roumanian minister to the United States, attended memorial services for the late king in the Roumanian Greek Orthodox church here yesterday, at which 1000 persons were present.

One Court Clerk For Two Judges

Additional Court Will Not Mean Additional Clerk Of Courts

While there is to be an additional judge elected this fall in Lawrence county, it does not mean, as possibly some people may think, the election of an additional clerk of courts.

Inquiry at the court house this morning showed that in spite of the fact that there will be two judges in the county, that one clerk of courts will still be required to officiate for both.

As in the bast when a visiting judge has been assisting in holding court here, the clerk of courts will handle both courts or in the case of necessity have one of his deputies sit in one court, while he acts in the other.

The fact is that a new court is not being established and that it is merely being increased and that the only difference will be that of increasing the duties of the clerk of courts during court sessions.

There will, however, be the appointment, it is expected, of an additional court stenographer, who will have charge of that type of work in the court of the new judge.

(International News Service)

JOHNSTOWN, July 25.—Owen Litzinger, 325 Cornell avenue, Pittsburgh, was recovering in a hospital here today from injuries received when his automobile struck an abuntment of a bridge on the Somerset pike, near the O'Connor farm. Litzinger's received a fractured rib and left ankle.

EPWORTH ORCHESTRA TO HAVE OPEN AIR CONCERT TONIGHT

The first of a series of open-air concerts will be held on the lawn of the Epworth Methodist Episcopal church this evening at 7:30.

The Epworth Sunday school orchestra consisting of 15 pieces have arranged a program of music for this first concert and Rev. Samuel Maxwell, pastor of the church says that they may continue the custom for the rest of the summer.

Apparently a lot of pious folk won't enjoy Heaven unless they can go to hell at intervals and tar and feather somebody.

Western Penna. Guardsmen At Mt. Gretna Camp

(International News Service)

CAMP GEARTY, MT. GRETNA, Pa., July 25.—Approximately 4,500 national guardsmen from Philadelphia, Grove City, Butler, Oil City and other western Pennsylvania cities started intensive training today, following their arrival in camp Saturday afternoon.

The men are facing a difficult schedule this time, one of the most difficult ever given the guard, according to the officers in charge of the training.

All training will be given with an "attack" and "defense" as the culmination of the two weeks camp.

There is a regiment of artillery from Philadelphia, scheduled to lay an imaginary barrage to protect the infantry men who will attack an elusive enemy.

Following the "attack" scheduled to be made during the first part of the training, the troops will camp in the hills on "Bivouac" for the night.

This will occur on the final Thursday of the camp. The next morning, the detachments will launch an attack on the "enemy" composed of guardsmen who were on bivouac on another section of the reservation.

The artillery will support the troops in this "battle" which is scheduled to follow. There will be no firing, however. The artillerymen merely aiming their guns and signalling their positions, while the infantry will go thru formations and phantom manoeuvers.

The positions of the troops will be signalled to a board of judges who will decide the victors.

McFate Reaches Quarter-Finals In Tournament

New Castle Tennis Player Among Remaining Finalists In Sharon Tourney

Joseph R. McFate of New Castle is the only one so far to reach the quarter finals in the Shenango Valley Tennis tourney which is being held this week at the Buhl farm at Sharon.

So far the tournament has gone to the fifth round, and eight are all that are left of the 35 original aspirants.

Some of the stars who may be expected to come into the finals late this week are George De Hoff of Sharon, Francis McDowell of Jamestown, Joe McFate of New Castle, and Coulton of Greenville.

McFate is the only one who has yet reached the quarter finals, where it is probable that he will be bracketed with Coulton of Greenville, but it is expected that all will be in the quarter finals by this evening.

It will be remembered that McFate, who is now a student in the University of Pennsylvania Law school, was once a star at Westminster, where for two seasons, he helped his college team win the cup.

"Ask Me Another" Is Nothing New At City Library

How Do You Weigh Air? Who Wrote "Early To Bed Early To Rise?"

Questions Which Reach City Librarian Daily Extend Over Wide Scale.

Hundreds of questions are asked at the New Castle City Library every year. Some of them seem "silly", but the majority of them are sensible. Some people ask whether or not the "top" library is open or not. By this they mean the second floor of the library.

Others ask questions like this: Who wrote, "early to bed and early to rise, etc." and the like. Some of the questions that the librarian and those in charge must answer, as taken from the library records follow:

What is the name of the instrument for reporting earthquakes?

What is Pennsylvania doing concerning good roads?

What is meant by rural school consolidation?

What was Webster's seventh of March speech?

What is the total mileage of railroad tracks in Great Britain?

What is the history of the Christian church?

What are the colors of the city of New Castle?

What is meant by the, "creed of youth"?

What are the benefits and pleasures of radio, cotton, flax and famous buildings?

What are the benefits of good roads?

Where is Leland-Stanford university?

What is the meaning of the word, "Kiwanis"?

What and where is Shantung?

Do you have the book, "Led by Love"?

What is the history of New Cas-Castle?

How many states are there in the union?

Who was Rip Van Winkle?

What was Harding's innaugural address?

Who wrote, "Early to bed and early to rise, makes....."?

How do you make beads?

How do you weigh air?

When does the baby library open?

What are the maiden names of Mrs. Harding and Mrs Coolidge?

What is the history of Christian Science?

What is the "Thunder" bird?

What did Lincoln say about a cigar?

Is the top library open?

When did Halley's comet last appear?

Number of families in New Castle?

Should an announcement of marriage be acknowledged?

Names of all the superintendents of public instruction in Pennsylvania?

What are the duties of a city commissioner?

Distance from New Castle to New Holland?

What is the story of lace?

What does "face upon the floor" mean?

What can be done to get rid of cutworms?

These are just a few of the questions asked however. All of those asked would fill several volumes and as space is scarce we cannot publish all of them.

Belgian Princess Gives Public Piano Concert

(International News Service)

BRUSSELS, July 25.—Princess Marie-Jose, daughter of the King and Queen of the Belgians has just revealed to the public that she is an accomplished pianist. Her first public concert was for the inmates of the Cripples' Institute of the Province of Brabant and was attended by the Queen. The Princess and her music master, the celebrated Eugene Ysaye, played two sonatas by Mozart and Beethoven and then the Princess played two pieces by Chopin.

Beach Censor For Akron, Ohio

AKRON, O., July 25.—"Male bathing costumes will be censored just as rigidly as were those worn by the opposite sex last year" was the statement of Miss Wakefield, the mayor's stenographer who was named a beach inspector a few weeks ago. The censorship of the beaches will start this afternoon.

"Should more material be ordered in ladies bathing suits, as the censor did unfairly in 1926, I may even order men to appear in the styles in vogue during the early ninities," she concluded.

When questioned the other censor Karl Pierce stated "I did my duty as I saw fit."

Scranton Bathing Beach Is Closed

(International News Service)

SCRANTON, Pa., July 23.—Lake Lincoln, Scranton's largest bathing beach, has been closed on orders of the department of public health. Millions of deadly germs have been found in samples of water taken from the lake, authorities said, and they declared this was a menace to the thousands of persons who bathe there.

Reports of a strange itch, which attacked many bathers, mostly children, brought the investigation. A similar condition prevailed last year, when the beach was closed several weeks.

Women's matches never thrilled me. I should not trouble to see them. —Susanne Lenglen.

Many Visitors At Scout Camp Sunday

With radiant sunshine and gentle breezes the John M. Phillips Boy Scout camp was the mecca of a throng numbering hundreds Sunday, since the early hours of the afternoon until long after "taps".

Scout Executive J. Lee Calahan and Camp Director L. M. Norton and all members of the staff were on hand and kept busy welcoming visitors from all over Lawrence county.

As the sun was declining the "colors" ceremony called together in deferential attitude every visitor.

At 9 a. m. the scouts assembled for morning service. Rev. Dr. James Charbonnier addressed the audience while Mr. Ayres conveyed scouts to the city to attend mass.

Scout Proficiency.

Scout proficiency was attained on Saturday by Dave Nesbitt as high point scorer with 160 points, Robert Close coming in second with 120 points. The high point scorer during the past week was Dave Nesbitt with 525 points. The scouts promoted to be dwellers of the Indian village for this week were Jack Stevenson, Bill Wheeler, Dave Nesbitt, Tom Trodden, James McGeorge, Weldon Henry, Stanley Minner, George Pander and Bill McKim, who is credited with three weeks in camp, and because of his marked ability has also been promoted to be the assistant leader of the Indian village. Dr. D. C. Sneller, a physician, who has motored from far away Hastings, Neb., and a connoisseur of Indian lore, was an enthusiastic admirer of this village and of all the camp.

On Saturday night there were frolics and fun in the auditorium with every hut contributing.

New Flag Pole.

Mr. and Mrs. Rufus Patterson paid a visit during the course of which Mr. Patterson admitted that a new steel flag pole would be just the appropriate support from which "Old Glory" should unfurl its folds, and Mr. Patterson is just the noble-minded citizen and friend of scouting to be the donor, and all the scout fraternity give him the scout salute and yell.

Rotary Visit, Movies.

Today the Rotary club of New Castle and friends will enjoy the freedom of the camp with a program in the open air amphitheatre and in case of unfavorable weather in the auditorium.

On Tuesday evening movies will be shown of scenes at the camp and comic strips.

Wednesday to Be Red Letter Day.

Wednesday will be known as New Wilmington, Enon Valley, Wampum night. A picturesque pageant with 125 participants and entitled "In the Covered Wagon Days" will be best of the season. Staff officers headed by Camp Director North and Nicholas R. Casillo, special dramatic coach, have been hard at work and thousands are expected to view this open air sky line gigantic play with a real wagon, in fact everything will be of a high order. This pageant will start at 9 o'clock sharp, because of the lights and shadows effects needed.

Do You Know That—

Do you know that—

PENNSYLVANIA State Highways have their own numbers, and that maps issued by the State Highway Department give these route numbers?

LINCOLN HIGHWAY was the first Pennsylvania road to be given a name in modern times, and that the William Penn Highway was second?

THE FIRST TUNNEL through a hill for railroad use was on the old Portage Railroad near Johnstown?

ROBERT FULTON, builder of the first practical steamboat, was born in Lancaster County, and tested the boat on the Hudson because the Susquehanna River was too shallow?

THE FIRST IRON STEAMBOAT ever constructed was launched on the Susquehanna River, opposite Marietta, in 1825?

FOR MANY YEARS Gap, on the Lincoln Highway east of Lancaster, was famous as the possessor of the only nickel mine in the United States?

THE MOUNTAINS crossed by the Lincoln Highway between Ft. Loudon and McConnellsburg extend northeastwardly across Pennsylvania to Delaware Water Gap?

WILLIAM PENN demanded five thousand pounds of John Harris, the first settler on the present site of Harrisburg, for all the land from the river to Silver Spring, and across the Cumberland Valley from mountain to mountain, but the bargain was concluded for three thousand pounds?

WHEN GEORGE WASHINGTON DIED, he held title to three thousand acres of land along what is now the National Pike, at what was known as Great Meadows, several miles east of Uniontown?

EDGAR ALLEN POE once visited Naginey Cave north of Reedsville, Mifflin County, near the William Penn Highway, and was delighted with the beauty of its interior?

AS LATE as 1773 there were twelve thousand buffalo in herds which roamed from Harrisburg to Sunbury, along what is now the Susquehanna Trail, and on up the West Branch of the Susquehanna; and that the path taken by the buffalo is still plainly marked along Buffalo Path Run in Union County?

ONE of the pillars from the old State Capitol at Harrisburg was erected at the source of Centre Creek near Jersey Shore to commemorate the 200th Anniversary of Penn's treaty with the Indians?

Florence And John Have "Understanding"

(International News Service)

DETROIT, July 23.—Miss Florence Trumbull, the pretty dark eyed daughter of the Connecticut governor, whose name has been mentioned as a possible daughter-in-law of the president, admitted "an understanding" between herself and John Coolidge.

Miss Trumbull was in Detroit with her parents, Gov. and Mrs. John H. Trumbull, en route to the governors' conference at Mackinac Island.

"You are engaged to John Coolidge, aren't you?" Miss Trumbull was asked.

"Well, things are just the same between us," the girl smiled.

"You mean it's sort of an understanding between yourselves?"

Miss Trumbull, her cheeks rapidly reddening, nodded her head.

"When will you be married?"

"Oh, I don't know," Miss Trumbull said, "nothing has been set."

"How about the plans for the wedding?"

"There's nothing more I can say," she said. "You know what publicity would do. They had to put a guard near John at Amherst, you know."

RADIO UNRELIABLE

SHARON, Pa., July 25.—Radio broadcasting has not reached the stage of perfection where it can be relied upon to supplant land telegraph wires for the transmission of important news, it was demonstrated here and in many other western Pennsylvania towns during the Dempsey-Sharkey fight. Weather conditions then were particularly unfavorable for successful broadcasting and thousands of fight fans looked to the newspaper offices for accurate reports in face of poor radio reception.

Building Permits Here For Past Six Months Show Large Increase

Nearly Million Dollar Increase Over Same Period Year Ago.

Nearly 500 Building Permits In Six Months—More Than Year Before.

While the building losses in Philadelphia and Pittsburgh for the last six months ran into millions of dollars, New Castle showed a gain of $881,355, according to the state Department of Labor and Industry.

In all of Pennsylvania during the month of June 5,065 building permits were issued for building work estimated to cost $24,024,985. Of this amount, $21, 191, 789, or 88 percent, is to be expended for new buildings and the rest for alternations and repairs.

While the estimated value of the building permits numbering 83, which were issued in New Castle last month, is $458,945, those of the same month of last year totalled 85, valued at $283,025. In Johnstown during the last month there were 57 permits issued for buildings to cost $106,645, as against those issued to that city last year, which numbered 75 permits to construct buildings costing $171,300.

In Philadelphia there were 1,953 permits issued last month for buildings valued at $14,843,590, which is a decrease of over $2,000,000 from those issued last year. Pittsburgh had 812 issued last year. Pittsburgh had had 812 permits issued, and the buildings were estimated to cost $2,293,543, a decrease of $1,500,000 over the permits issued in June of last year.

Gains in the number of one family dwellings over last June are shown in the report of the Department of Labor and Industry. The average cost of one family dwellings in June, 1927 was $4,817, as compared with $4,964 in the same month last year.

In the non-residential buildings decreases are shown for six classes of structures, including amusement and recreation places, churches, office buildings, private garages, and gasoline service stations.

Of the $2,035,725 to be expended under the June permits for additions, alternations and repairs, 81 percent is to be used for changes to residential buildings, which is practically the same proportion as for June, 1926.

Fifty-one new buildings are to be constructed in New Castle under the June permits, with a total cost of $309,480, and there will be 32 buildings altered or repaired, these to cost $149,465. Last year in the same month there was $178,965 expended for 66 new buildings while 19 structures were repaired at a cost of $104,060.

Nearly $2,000,000 Here

In the first half of the present year there were 466 permits issued in New Castle for new buildings, the cost totalling $1,870,155, as against the 452 permits issued for the same time last year, for buildings costing $988,800.

At the same time the building in Altoona decreased over $100,000, while in Philadelphia and Pittsburgh the decreases were $9,000,000 and $3,000,000 respectively.

That marriage is getting to be a popular institution is shown by the fact that so far this year there have been no permits for non-housekeeping dwellings, while in all classes of housekeeping dwellings there have been 2,232 permits issued.

Of the, non-residential buildings private garages, separate from dwellings, top the list with a total of 544.

The grand total of all buildings to be constructed according to the permits issued for June is 3,238, and the total cost will be $18,345,471.

Rev. J. Alvin Orr Charges Mayor With Collusion

Pastor Makes Round-About Reply To Statement Of Pittsburgh Mayor

(International News Service)

PITTSBURGH, July 25.—The Rev. J. Alvin Orr, president of the Citizens League of Allegheny county, today charged Mayor Charles H. Kline with collusion following his refusal to oust Peter P. Walsh, superintendent of police.

Kline, in a letter to Orr, charged the Citizens' League was antagonizing the police department. The mayor stated Walsh had reduced vice in this city, citing court records.

Without directly answering Kline's letter, Orr, in an address last night, said Kline had evaded the questions placed before him in the league's demand to oust the police head.

In his letter to Orr, the mayor said that Walsh was justified in investigating the past record of William L. King, executive secretary of the league. He charged King attempted to cast a slur upon the name of the city. He stated that King had falsely charged high school students with being narcotic addicts.

The mayor's letter is to be laid before a meeting of the executive board of the league, after which an answer or a public statement will be issued.

Jersey Calves Are Shipped To Wayne County

The 12 thoroughbred Jersey calves which were recently purchased by J. E. McKeehen, county farm agent of Wayne county and R. C. Welsh extension dairy specialist of State College for the Boys and Girls Calf club of Wayne county, were loaded and shipped to Wayne county today, according to H. R. McCulloch, farm agent of this county.

Mr. McCulloch states that these calves were purchased from the following: M. G. Moose of Volant, J. W. Cox of New Wilmington, J. W. Bronson of New Galilee, W. H. Davis of Portersville and George Campbell of Keister, Butler county.

Public To Decide Site For Battle

(International News Service)

CHICAGO, July 25.—The public is to decide whether or not Chicago is to have the Dempsey-Tunney fight in September.

President Edward J. Kelly of the South Park board, which has jurisdiction over Soldiers Field, one of the largest amphitheatres in the world upon his arrival here from New York said he must "sound out" the public mind before turning over the public field for a boxing exhibition.

Erie Accepts Challenge To Beat Our Record For Large Hollyhocks

Erie is pleased to accept New Castle and Lawrence County's challenge as to which locality can produce the largest hollyhock, according to the Erie Dispatch-Herald. So far, New Castle is leading by sereval feet, and since the first report, a hollyhock has been reported here that measures 11 feet 5 inches.

Here is what the Erie newspaper says regarding the contest:

"New Castle garden fanciers have issued a challenge to the garden lovers of Erie and Erie county as to which section can report the highest hollyhock stalks this season.

A few days ago the Dispatch-Herald requested Erie gardeners to report the highest stalk in this section in the hope of beating out the eleven foot stalk reported growing in the yard of Mrs. George Dunn of New Castle and which measured eleven feet at that time. Now comes the New Castle News with a challenge to Erieites as follows:

"Erie is trying to cop the laurels from New Castle.

"Recently it was stated in these columns that Mrs. George Dunn of Highland avenue had raised a hollhock that totals 11 feet in height at the present time, quite a height for so early in the season.

"Now, the Erie Dispatch-Herald is trying to beat this record and asks Erieites to report on the hollyhocks in that city, in an effort to beat the New Castle record.

'Have we any larger hollyhocks in New Castle, or Lawrence county.

"So far only one Erieite has entered the contest, Mrs. Fred Snell, 635 West Eighteenth street, who in a letter to the Garden Editor says:

"'Our hollyhocks are not doing very well this year. Last year this time they were quite a bit higher. But I think the cold weather we had had a lot to do with it. The highest stalk we have is seven feet and one inch. We always had such tall stalks but this year they do not seem to grow. I hope Erie of Erie county can reach the New Castle record.'

"Get out the yard stick and step ladder you Erie gardeners, and measure your tallest stalk and send the result to the Garden Editor of the Dispatch-Herald. Surely there are hollyhocks growing some place around this section that can equal if not surpass the New Castle record."

A small boy was returning from school crying bitterly. "What ails you, my little fellow?" asked an old gentleman.

"I-I've lo-st the p-penny the t-t-teacher gave me for b-being the best boy in the class," sobbed the boy.

"Oh, well, never mind," replied the old fellow, "here is another one that will take its place. But tell me how you lost it."

" 'Cause I wasn't the best boy in the class,' " replied the boy.—Lancashire Daily Post.

Radio Stations Seek More Power

Eighteen Broadcasting Stations To Have Hearings Before Board.

WEATHER HINDERS TESTS RECENTLY

By ROBERT S. THORNBURGH.
International News Service Staff Correspondent

WASHINGTON, July 25.—Eighteen broadcasting stations will "go to bat" with the Federal Radio commission in a series of hearings opening Tuesday for the purpose of getting more power and better wave length assignments.

Officials of the commission declared today that they intended to stand pat on original allocations excepting in minor respects where some deviation would be granted in the interests of better reception.

May Make Changes.

Additional power for a few stations which insist that their audiences have been cut by reductions decreed by the commission probably will be granted.

As yet no real test of the new setup has been obtained because unfavorable radio weather has cut down the range of stations automatically reducing interference. With the scope of even the 500 watt stations beginning to extend out to nation-wide proportions in October and November the commission will be able to determine final shifts in power and frequencies to obtain good reception.

Ideal conditions—that is, reception without interference on any wave length—admittedly is impossible unless the number of stations is reduced to 300. That, without congressional legislation, is just as impossible.

Many of the stations on the lower wave lengths either have started a drive for more favorable position or are planning to come before the commission with protests. It is asserted that the band below 250 meters is still marked by serious interference, eliminating satisfactory reception excepting within a few miles of the station.

Hearings will open Tuesday when station WFRL, of New York, will seek a change from 1170 to 1370 kilocycles. WFBE, of Cincinnati, is scheduled on the same day to apply for an increase in power from 250 to 500 watts.

Other new hearings follow:

August 4—Station WTAB, of Quincy, Ill., for increase in power from 250 to 500 watts. Station Kow, of Denver, for increase in power from 250 to 1,500 watts.

Members of the federal commission who have been making a tour of the country to determine the actual effect of the new allocations and to study radio needs of the various districts will return to the city Monday to plan their winter campaign.

Business Women's Convention Ends

Women Vote Against Protective Legislation For Women In Industry

(International News Service)

OAKLAND, Cal., July 25.—After voting in favor of lower income taxes and the child labor amendment, the national convention of the Business and Professional Women's Clubs held its final executive meeting Saturday.

After a hot convention skirmish, the delegates voted against protective legislation for woman in industry.

With the exception of Nancy Meeke Hain of Miami, Fla., who resigned as second vice president, all national officers were re-elected.

The national officers for the coming year are Miss Lena Madesin Phillips, New York, president; Elizabeth Fitzgerald, Salt Lake City, first vice president; Elizabeth Barnard, Tampa, Fla., second vice president; Frances E. Plath, Davenport, Ia., recording secretary; Dr. Bertha M. Maxwell, Williamsport, Pa., corresponding secretary, and Mrs. Florence H. Stone, New Orleans, treasurer.

Both New Orleans and Mackinac Island, Mich., placed bids for the 1928 convention.

SUGGESTIONS FOR SOLVING CROSS-WORD PUZZLES

Start out by filling in the words of which you feel reasonably sure. These will give you a clue to other words crossing them, and they in turn to still others. A letter belongs in each white space, words starting at the numbered squares and running either horizontally or vertically or both.

PETERS ADVENTURES IN ANIMAL LAND

By Florence Smith Vincent

A BOY FRIEND AND A BEETLE'S FOE

"This is certainly a fine day, Two-Legs," buzzed a voice close by Peter's ear. "Why, 'tis high noon and even yet there are dewdrops glistening on the baby blades of grass. Tee! Hee! Sun is working hard today.

"All too soon, though. Sun will grow so strong that it will take him no time at all to dry things up—he'll finish his tasks soon after dawn and then for the rest of the day he will make things warm for us earth folks. Although, to tell the truth, I like the heat myself. I was thinking of the pond people when I spoke."

This was quite a long speech for any of the outdoors people to make at one time and Peter turned around three times before he could find out who it was. Then he discovered a little lady in a spotted red coat sitting upon a branch of pussywillow and he gave a cry of joy.

"Why, Lady Bird, you dear old friend! Where did you come from and how long have you been here?" cried the boy. "I am so glad to see you. How have you been since we last met?"

"Splendid, thank you," replied Lady Bird politely. "Nothing dreadful has happened. My house never caught on fire, after all, and my children grew well and big and then flew away and left me alone. I always had the fear that I would one day leave them alone. All my worry for nothing! Funny, isn't it? Oh, well, summer will soon be here and I shall have another little family to take care of. My long sleep did me good. I am sure of it, and I simply can't tell you how glad I am that spring is here. If I had a voice I should certainly sing for joy."

"SUN IS WORKING HARD TO DAY," BUZZED A VOICE CLOSE TO THE BOYS EAR.

Peter chuckled.

"Froggie had no voice, but he sang just the same and for the very same reason that you would if you could," said he. "Both of you are happy because the winter has gone."

At these words Lady Bird gave a shrill little cry.

"Froggie—do you know Froggie?" asked she and fluttered nervously about.

"Of course I do. He is a nice old fellow and I am on my way to the pond to visit him right now. Want to come along with me? I am sure he would be glad to see you."

"No doubt he would. I am sure of it," agreed Lady Bird, and the Boy noticed that the little beetle seemed to be shivering.

"Froggie would gobble me up in a second if only he could get his long tongue upon me. Go visit him? I rather guess not. Why, Frog is one of my worst enemies. He has been the death of more than one of my friends.

"Well I remember one day last summer. Lil and I (Lil Lady Bird was my dear sister) were flying over the pond. Lil suddenly dropped low—why, I never knew, and—Bob! Snap! Out of the clear water came a knobbed head, out ran a limber tongue that caught and held sister, struggle as she would to get away, and down Froggie's throat went tongue, sister and all. No, siree! I wouldn't go near that pond for anything in the world. The very idea makes me want to fly just as far into the air as I can go—away from any damp marshy slime where a Frog or a Toad might lurk!"

And up into the topmost branches of the pussywillow tree darted Lady Bird.

Several Minor Auto Accidents

Several Automobiles Are Damaged In City Auto Accidents

Although there were several minor automobile accidents in this city during the past 48 hours no persons were injured, according to reports to police but all of the cars which figured in the accidents were damaged.

Gilbert Lee, 319 Phillips street, reported that his car had been struck by an auto bearing Pennsylvania license No. B8-098 in Mahoning avenue near Liberty street.

Gottfried Ullrich, 16 North Mill street, reported to police traffic forced him to stop in East Washington street and his car was struck by an auto bearing Pennsylvania license No. 382-985.

Mrs. Hessie Dittman, 707 W. Clayton street, informed police she had stopped before turning into North Liberty street en route to Madison avenue and her car was struck by a machine owned by Paul Kluz, Pittsburgh.

SPEARS $12,000 PRIZE.

CAPE MAY, N. J., July 25.—Because he had curiosity enough to spear a lump being fought over by a flock of sea-gulls Jeremiah Pratt, seaman is now the richer by some $12,500. Pratt was on watch on the deck of the schooner Mary Ann when the quarreling gulls drew his attention to the prize. It turned out to be a lump of ambergris weighing 28 pounds and very valuable to perfumers. Pratt says he's going to sell it, buy a poultry farm and retire from the sea.

Four Lawrence County Men Are Now Listed In 1927 "Who's Who?"

Four of the "6,000" whose names and life histories appear in the 1926-27 edition of "Who's Who in the Nation's Capitol" were born in Lawrence county.

To have one's name so listed is a distinction for Washington is replete with notables, and only 6,000 of the city's half million persons appear in the 700 page volume which is published every two years.

The book contains the names and biographies of a carefully selected group, including the President, his cabinet, important executives, scientists, authors, newspaper men, educators, and professional men and women.

A. F. Anderson

One of the first names in the book is that of Andrew Freeman Anderson, who was born Oct. 15, 1866 at Volant. He is the son of Barnabas and Margaret Ellen Anderson.

From the time that Mr. Anderson completed his education at the University of Chicago, he first taught school and then entered the ministry. Some of his charges have been the Grace Baptist church, at Washington, D. C., the First Baptist church at Harrisburg, the Normal Park Baptist church and the Calvary Baptist church, both of Chicago.

Today Mr. Anderson is the pastor of the First Baptist church at East Orange, N. J. He is married and has three children. His home address is 15, Winthrop Terrace, East Orange, N. J.

J. A. Van Ordsel

Another man of Lawrence county who has achieved fame is Josiah Alexander Van Ordsel, now Associate Justice of the District Court of Appeals. Mr. Van Ordsel was born at New Bedford, Nov. 19, 1860. He was educated at the Academy at Grove City, and then entered Westminster college, where he later received his Doctor of Laws.

Mr. Van Ordsel began his study of law in New Castle but he had moved to Nebraska before he was admitted to the bar. From this time on his rise was a steady one. In turn he was elected prosecuting attorney of Laramie county, Wyoming, elected to the Wyoming House of Representatives, was appointed attorney general, made assistant to the Attorney General of the United States, and now holds the position to which he was appointed by the late ex-President Roosevelt.

Mr. Van Ordsel's home is in the Roosevelt hotel, and his office is in the Court of Appeals Building, Judiciary Square.

William J. Graham

William J. Graham, presiding Judge of Mercer county, Ill., is yet another of the famous men who come from Lawrence county. Mr. Graham was born near New Castle in 1872, but he moved to Illinois in 1879. There he was educated in the public schools, finally graduating from the University of Illinois. He was admitted to the bar in 1895.

At present Mr. Graham is married and has three children.

In May, 1924, President Coolidge appointed Mr. Graham to be the presiding judge at the U. S. Court of Custom Appeals. His address is the U. S. Court of Custom Appeals.

W. K. Hartung

William K. Hartung, a real estate broker, who was born in Enon in 1890 is also mentioned in the book. After he left Lawrence county in 1899 he was graduated from George Washington university. Since then he has been married and has one daughter. He is now president of the Hartung Real Estate company, and President of the Hartung Investment company.

HOW MRS. WEAVER WAS HELPED

By Taking Lydia E. Pinkham's Vegetable Compound

As Mrs. Weaver herself says, "I was never very strong." This is a mild statement describing her condition, for, according to her letters, she was subjected to no small amount of ill health. Fortunately, her sister was familiar with Lydia E. Pinkham's Vegetable Compound and begged Mrs. Weaver to try it. "After three or four weeks," writes Mrs. Weaver, "I felt a great difference in myself. I would go to bed and sleep sound, and although I could not do very much work, I seemed stronger. I kept on taking it and now I am well and strong, do my work and take care of three children. I sure do tell my friends about your wonderful medicine, and I will answer any letters from women asking about the Vegetable Compound."—Mrs. Lawrence Weaver, East Smithfield St., Mt. Pleasant, Pa.

If you knew that thousands of women suffering from troubles similar to those you are enduring had improved their health by taking Lydia E. Pinkham's Vegetable Compound, wouldn't you think it was worth a trial?

Your Member Of Congress

By H. C. HUNTER
Secretary to
HON J. H. SWICK
At Washington

WASHINGTON, D. C., July 25.—The bureau of census, Department of Commerce, has just recently finished compilation of a farm census taken for the year 1925, the results of which are quite interesting. The following statistics cover the 26th congressional district, which comprises Beaver, Butler and Lawrence counties.

The total population of farms by counties was: Beaver, 10,884, of which 10,845 were white and 39 colored; Butler, 19,352, of which 19,334 were white and 18 colored; Lawrence, 11,896, of which 11,862 were white and 34 colored.

Own Own Farms

By far the greater number of farmers in the district own their own land, the population of owned farms, tenant farms and managed farms being divided as follows: Beaver, owned, 8,740; managed, 115; tenant, 2,029; Butler, owned, 16,947; managed, 100; tenant, 2,305; Lawrence, owned, 10,272; managed, 63; tenant, 1,561.

The total number of farms in each county: Beaver, 2,415; Butler, 4,177, and Lawrence, 2,604.

The total farm acreage: Beaver, 192,495 acres, of which 70,326 acres were harvested; Butler, 324,778 acres, of which 135,870 acres were harvested; Lawrence, 178,825 acres, of which 81,867 acres were harvested. Valuation of land and buildings: Beaver, land, $7,881,193; buildings, $6,467,305; Butler, land, $10,530,720; buildings, $10,981,135; Lawrence, land, $8,301,488; buildings, $9,430,915.

Statistics compiled for the year ending January 3, 1927, for the city of New Castle, in which figures are included the transactions of the board of education in order that the statistics may be on a basis comparable with cities in which the schools are a part of the city corporation, include the following data:

Expenditures

Total payments for the maintenance and operation of the general departments, $1,201,751.00, or $23.70 per capita, compared with $23.07 in 1925, and $11.11 in 1927. Interest on debt, $137,347.00, outlays on permanent improvements $546,643.00. The total payments for the schools amounted to $943,763.00. Of this amount $771,366.00 represents expenses for maintenance; $76,644 interest on debt; and $93,753.00, outlays.

Revenues

Total revenue receipts for 1926, including schools were, $1,714,749.00, or $33.82 per capita. This was $375,643.00 more than total payments of year, exclusive of payments for permanent improvements, but $170,849.00 less than the total payments for the period including those for permanent improvements. The revenue receipts for the School District amounted to $985,531.00.

Property Taxes represented 71.4 per cent of the total revenue for 1926, 67.6 per cent for 1925, and 75.2 per cent for 1927. Increase in the amount of property tax collected was 106.2 per cent from 1917 to 1925, and 16 per cent from 1925 to 1926. The per capita property taxes were $24.15 in 1926, $21.17 in 1925, and $11.98 in 1917.

Indebtedness

The net indebtedness (funded or fixed debt less sinking fund assets) on January 3, 1927, was $2,483, 112.00 or $48.98 per capita. Of the total net debt $1,585,218.00 was for the schools. In 1925 the per capita debt was $49.77 and in 1917, $18.25.

Assessed Valuations and Tax Levies

For 1926 the assessed valuation of property subject to ad valorem taxes for the city was $55,007,110.00. The levy for all purposes for 1926 was $1,575,702.00, of which $536,319.00 or 34 per cent, was levied for the city corporation; $715,092.00 or 45.4 per cent, for the school land $324,291.00 or 20.6 per cent, for the county. The per capita tax levy for the city, school and county was $31.08 in 1926, $31.06 in 1925, and $15.65 in 1917.

NEW YORK, July 25.—A little boost has been given to the conscience fund kept by Frank K. Bowers collector of internal revenue. Another conscience stricken citizen has added his bit to the fund's growth—$130 to be exact and it's for back taxes. The citizen anonymous, specified that $128.72 the amount that he owed be placed in the fund and that the additional $1.28 be used to advertise the receipt of the letter. Bowers decided to put the entire amount in the fund.

Vandergrift Lad Does Not Envy Little King Michael Of Roumania

(International News Service)

VANDERGRIFT, Pa., July 25.—Young Michael can continue to be king of Roumania without evoking the slightest envy in the heart of "Whip" Elliot, the small son of W. M. Elliot, formerly of Vandergrift.

Michael ascended the throne of the little Balkan empire amid the plaudit of that nation, but "Whip" thinks he went the baby king one better. "Whip" actually shook hands with the president of the United States at City while the movie cameras clicked.

While Michael was destined to become king, after Prince Carol renounced the throne, "Whip" had to work for his honor, but he says it was worth the trouble.

The former Vandergrift youth, with his parents, arrived in Rapid City about the time a thousand other tourists put in an appearance and all entertained a lusty desire to grip the hand that steers the course of the ship of state.

"Whip" and his father saw that something had to be done and quickly if the Pennsylvania youth was to be among the lucky few to commune with President Coolidge, who had come down to the Rapid City high school from the state game lodge, the temporary "White House".

So the elder Elliot ferreted out an acquaintance among the president's attaches and benefited by expert advice as to where to stand to be first to greet the president.

When Mr. Coolidge emerged from the building "Whip", groomed in his very best cowboy suit, chaps and all, dashed up to the president with his arms outstretched. And the nation's executive in turn held out his hand to him—this while a dozen cameramen cranked at their mysterious little boxes which recorded the event.

Cemetery No Place For Petting Party!

(International News Service)

DANVILLE, Pa., July 23.—A cemetery is no place to stage a petting party, the police department here serves notice.

Complaints that Danville's sheiks and flappers have made use of the Episcopal, Jewish and Fairview cemeteries brought an investigation by authorities, who discovered many of the offenders had driven their automobiles over graves, and in many cases cars had become mired in the soft ground, leaving unsightly marks wh the cars were pulled out.

A night watchman in one of t cemeteries collected a number of cense plate numbers and is holdi them, prepared to bring acti against the offenders if they visit t grave yard again.

Doctor Found What is Best for Thin, Constipated People

As a family doctor at Monticello, Illinois, the whole human body, not any small part of it, was Dr. Caldwell's practice. More than half his "calls" were on women, children and babies. They are the ones most often sick. But their illnesses were usually of a minor nature—colds, fevers, headaches, biliousness—and all of them required first a thorough evacuation. They were constipated.

In the course of his 47 years' practice (he was graduated from Rush Medical College back in 1875), he found a good deal of success in such cases with a prescription of his own containing simple laxative herbs with pepsin. In 1892 he decided to use this formula in the manufacture of a medicine to be known as Dr. Caldwell's Syrup Pepsin, and in that year his prescription was first placed on the market.

The preparation immediately had as great a success in the drug stores as it previously had in his private practice. Now, the third generation is using it. Mothers are giving it to their children who were given it by their mothers. Every second of the working day someone somewhere is going into a drug store to buy it. Millions of bottles of Dr. Caldwell's Syrup Pepsin are being used a year.

Its great success is based on merit, on repeated buying, on one satisfied user telling another. There are thousands of homes in this country that are never without a bottle of Dr.

Bernstein—Ford Settle Difference

Bernstein Accepts Ford Apology And $200,000 Libel Suit Is Withdrawn.

Ford Retracts Several Statements Appearing In Dearborn Independent.

(International News Service)

NEW YORK, July 25.—Herman Bernstein, editor, today has accepted the apology of Henry Ford and has dropped his $200,000 libel suit against the Detroit manufacturer.

Ford has retracted the assertion of the Dearborn Independent, his publication, that Bernstein supplied him with the information on which the Independent's anti-Jewish campaign was based, is contributing toward Bernstein's expenses in the suit and has agreed to do everything in his power to counteract the effect of the articles which were translated into many languages and circulated in all part of the world.

Settlement of the Bernstein suit is a direct development of Ford's ordering that all attacks on Jews, such as had been printed in the Dearborn Independent, be stopped forthwith. This was announced on July 8 by Arthur Brisbane. It follows closely the settlement of a similar suit brought against the motor magnate by Aaron Sapiro.

The specific conference ending the Bernstein suit was held at Yonkers with Samuel Untermyer, representing Bernstein, and Clifford B. Longley of Detroit, DeLancey Nicoll, Jr., and Martin C. Ansorge representing Ford.

Announcing the successful outcome of the conference, Mr. Untermyer said:

"Mr. Ford has now done all that mortal man can do toward correcting the grievous wrong perpetrated aganist the Jewish people—the vilest campaign of persecution since the inquisition and far more insidious."

Highway Department To Advertise Bids For Road Building

(International News Service)

HARRISBURG, Pa., July 25.—State highway department officials today prepared to advertise 65 road projects which, although totaling less than 130 miles in length, will open at least 1,000 miles of continuous hard surfaced roads.

The closing of the 65 gaps has been contemplated since the beginning of the present administration. Some of the stretches are between routes now improved while others are short sections which were never built when the major portions of the road were constructed.

Department officials estimate that $5,000,000 will be expended in closing up the gaps in the roads, it being pointed out that building short sections of road is costly because of the expense of moving equipment.

The greater number of the gaps to be built either by the state or by contractors are stretches less than one mile in length.

Among the stretches to be completed by the filling of gaps will be a short route between Harrisburg and Allentown, and points east, and a route between Harrisburg and Reading.

Dry Forces To Work With Great Lakes Customs Patrol Men

(International News Service)

CLEVELAND, July 25.—A closer co-ordination of the Great Lakes Border Patrol, Customs Service and Prohibition Forces, and possibly an amalgamation of the three, is expected, following a survey of a congressional party of inspection, headed by R. Carl White, assistant secretary of labor.

The party which visited Cleveland, Detroit and other lake cities, is expected to make recommendations for "pointing up" the services rendered by the various forces which watch the Great Lakes border to guard against smuggling of liquor and other goods.

The chief purpose of the move will be economy, White states, pointing out that the Border Patrol, the Prohibition forces and the Customs Service all devote much of their time to watching for rum runners. A reorganization, he believes, would tend to make the government's vigil along the lake more efficient and less expensive.

The party included Congressman Milton W. Shreve, Pennsylvania, chairman of the congressional subcommittee on appropriations; Congressman Milton B. Oliver, Alabama; Anthony J. Griffin, New York, Paul Malone, secretary of the committee; and Maj. Melvin Jones, representing the Bureau of the Budget.

Paris News Booths Attract Veterans

(International News Service)

PARIS, France July 25.—A feature of the Paris boulevards which will interest American Legionnaires who will go abroad for the ninth annual convention September 19 to 23 will be the gaily colored "Kiosques" or news booths which served as reading rooms for all nations. During the war, Legionnaires will recall the "Kiosques" for reading rooms were little frequented. Now these reading rooms have come back stronger than ever with an unbelievable number of magazines on exhibition in a five foot hexagonal space.

The "Kiosques" were authorized under the reign of Napoleon I and have grown so popular that there are more than 5,500 in Paris. Today especially in the "kiosques" situated along the Madeleine and on the boulevards des Caupcines, Italiens, Montmartre Poissonniere and other avenues one may find almost any newspaper in the world.

The "Kiosques" belong to the city of Paris and like tobacco stores, concessions are given to the widows of government employes and of the soldiers who died in the service or who have been pensioned after the war. Some "Kiosques" make from 200,000 to 300,000 francs per year. Legionnaires who desire to read home news during convention week will find all they desire in these "kiosques' on the grand boulevards. Many of the "kiosques" keepers speak several languages and the tourist will find them agreable and willing to make a complete search to find a home paper.

South African Soon May Get Tourists From This Country

(International News Service)

CHICAGO, July 25.—The national winter hegira to Florida and southern California may soon be directed toward South Africa, it was predicted here today by Eugene Van Wyk a native of South Africa, who lectured before Chicago clubs and travel associations.

John Galsworthy, noted English novelist, and other famous men have awakened to the beauties of the so-called "Dark Continent."

"Africa is little different from North America," Mr. Van Wyk said. "Movie palaces, automobiles, noisy street cars, real estate salesmen, short dresses, bobbed hair, and other features of our ciilization are to be found there.

"Johannesburg is as large as Cleveland. Cape Town is the new riviera. There is a national park as large as Yellowstone. Two beautiful two hundred mile drives extend along the ocean. Two American girls recently drove from Cape Town to Cairo in a dilapidated flivver. It is no more hazardous trip than from New York to Los Angeles and the roads are almost as good.

"Kaffirs have their own schools and universities and live upon reservations much as do the American Indians.

"Honeymoon couples in certain New York circles are ohoosing South Africa as their destination."

Mr. Van Wyk, who recently married an American girl, announced that he would probably live in this country with occasional week-end jaunts to Africa by airplane when such facilities are available.

Two Are Injured By Blast Of Bomb Near Uniontown

(International News Service)

UNIONTOWN, Pa., July 25—Two of the five members of the family of Elias Johns at Revere, near here, were injured today when a two-story frame building was wrecked by a bomb explosion felt within a radius of more than a mile.

Nearly all windows in the town were shattered and the explosion was heard in Uniontown, three miles away. The first floor of the demolished building was occupied by a general store operated by Johns. He and his family lived above the store.

Police believe the motive for the explosion was robbery as nearly $740 in cash and valuable papers kept in the store are missing. They may be buried in the debris, but as yet have not been found.

Johns told police he was warned in a letter received two months ago that unless he "paid his debts immediately" he would be prosecuted. A huge hole was blown in the side of the building, but the family was sleeping on the other side. Only Mr. and Mrs. Johns were cut and bruised by flying glass.

New Castle's Main Street Is Being Greatly Altered

There are a few cities in the country at the present time that are showing the progress in the downtown section that is evident in New Castle.

The main street is changing rapidly.

The First National Bank of Lawrence County is erecting a magnificent new six story bank building at the corner of Washington and Mercer streets.

The Pennsylvania and Ohio Power Company is building a large addition to the company's building at the corner of Washington street and the public square.

The Lawrence Savings and Trust Company is erecting a seven story addition to the bank building on Washington street, that will add 55 offices to the building, and greatly enlarge the space occupied by the bank.

Extensive changes are being made in the St. Cloud building, Washington street, which will provide for one of the largest stores in the city, some three former store rooms being combined in one.

The Brown and Hamilton Company building on Washington street, is to be remodelled at once, for another new store.

The two store rooms at the corner of Mill and Washington street were recently remodelled into several up-to-date business rooms.

Several other changes are also to be made in the near future.

Penna Employes To Picnic At Kennywood

Many New Castle employes of the Pennsylvania Railroad are planning to attend the fifth annual picnic at Kennywood Park, tomorrow, July 26.

The picnic is a general affair of all the divisions of the Central region of the Pennsylvania Railroad. A special train originating at Ashtabula will be run for the accommodation of those going from the local E and A. Division. This train is due at Lawrence Junction at 8:10. New Castle passengers will take regular train No. 1440. Returning train will leave the park at 5:30 p. m.

A full program of sports, including several athletic events with prizes will be had as well as bathing, boating and dancing. A ball game between the E. and A. division baseball team and the Scully team will be an attraction for local fans.

The E. and A. Band will accompany the special train and furnish music for the day.

WHAT SHE WANTED

The new arrival at the summer resort was disappointed. "This is a more satisfactory place to come to in winter than in summer," she remarked glumly.

"Why so?" asked the other girl.

"In winter we could at least have a snow man."—From the Boston Transcript.

FALLING LINOLEUM CAUSES INJURIES

Mrs. Lola McBride, Boyles avenue, is confined to her bed as a result of injuries sustained when four rolls of linoleum in the W. F. Dufford store fell on her Saturday evening.

She was viewing a display of rugs which were suspended lengthwise on swinging iron supports, and in some manner the rugs upset the linoleum, directly in her path.

She was badly bruised about the face and head, and was removed to her home, where her condition remains about the same.

The father of Patrick Henry was born in Scotland.

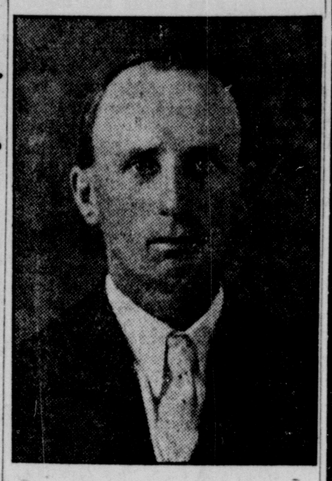
Cotton Announces For Commissioner

Shenango Township Man Enters Race For Republican Nomination



FLOYD L. COTTON

Floyd L. Cotton, Shenango township, has announced as a candidate for county commissioner, subject to the Republican primaries September 20, 1927.

Mr. Cotton in his initial statement says: "When a man aspires to a place in the public trust, he owes to the voters whose suffrage he invites, a formal pledge of loyalty to the public interest. Practically every office, appointive or elecitve, in local, state or national government, either directly or indirectly affects the daily lives and fortunes of the people. The office of county commissioner is one of the most important within the gift of the citizenry of Lawrence county.

"The law specifically defines and delimits its functions insofar as the principal duties of the office are concerned; but many matters of major importance and vital issue to the people of the county are left to the discretion of the commissioners themselves.

"In this light, it behooves the intelligent and militant voter to scrutinize carefully the public record and private character of every candidate for the office. Better than self-recommendation or self-praise is the fair and impartial testimony of those who have known a candidate over a period of years. My record is open for inspection."

Father Dies In Effort To Save Small Son

COLUMBUS, O., July 25.—While saving the life of his 8-year-old son, Dr. Joseph Leist, 41, met his death in the Scioto river near here yesterday.

While the father was battling to save the life of his son John, his two other sons stood helpless on the bank.

The boy would probably have been a victim also if Don Miller of Chicago, who is visiting here had not arrived just as the father slipped off a ledge into deep water and left John floundering.

Miller rescued John but was unable to save his father.

While the father was preparing a picnic breakfast the three boys wandered about and the screams of the two boys later notified Dr. Leist that John had fallen in.

NEW CASTLE TO PLAY MASSILLON TEAM TUESDAY

Locals Hope To Continue Streak

Jamieson Or Meis To Hurl Against Strong Ohio City Team Here Tomorrow.

MASSILLON TEAM IS RATED HIGH

By "BUGS" WALTHER

New Castle-Youngstown combined team will battle the Massillon Agathons at Centennial field on Tuesday evening at 6:15 o'clock in an O. & P. battle. The game looms as one of the most important of the year for the "Fliers".

The locals can go into second place by downing the Ohio boys here tomorrow night. Massillon has won four and lost one league game in the second half, and New Castle shows four victories and two defeats. A New Castle-Youngstown victory will elevate the locals to within hailing distance of the top berth.

The Canton club is holding to first place with five victories in six starts and it is going to take a mighty fine team to dislodge them. Incidentally the Cantonites are scheduled for a double bill at New Castle on Saturday, July 30. If the locals can take both games and also defeat the Agathans here tomorrow night, things will be different.

The double-header scheduled last Saturday with the Cleveland Tellings was washed out by rain. With the pitchers getting plenty of rest, the locals are well fortified for the three hard battles this week.

Pitchers in Shape.

Jamieson and Meis are both ready to go again. Hospidor is also waiting his turn to pitch, and "Lefty" Feigert may draw the assignment in one of the games this week. Feigert recently set the Beaver Falls Elks back with four bingles and took a whitewash victory.

The Agathons are rated one of the best clubs in the Ohio and Pennsylvania circuit and they will cause the locals plenty of trouble. It is expected that the Massillon management will start their ace, Charlie Brindza, here tomorrow night. Brindza on his final appearance in this city was hit hard and often by the local clubbers. New Castle defeated Massillon at Centennial field not so very long ago.

The Agathons have announced the sale of one of their star heavers, Charles Wentzel, to the Philadelphia Athletics. Wentzel has won 21 games and lost but five this year. He will report to the Macks immediately, it is understood.

The New Castle-Youngstown team is rarin' to go again. The team has been idle since the recent victory over the Elks at Beaver Falls. The fight for the pennant in the second half has only just begun.

The locals shape up as one of the strongest combinations in the league today. The hitting of the New Castle-Youngstown team is the best of the year and the pitching department has been strengthened by the addition of Hospidor. DeMont, the new fielder, will make his local debut here on Tuesday night. DeMont is another player of the slugging type as shown by his two terrific smashes at Beaver Falls recently.

Ladies Free At Baseball Game Tuesday Night

The directors of the New Castle baseball team announced today that the New Castle-Massillon game scheduled for Tuesday night at Centennial field, would be free to the ladies of the city.

The game tonight will start at 6:15 o'clock.

Tennis balls to the value of $2,500,000 are required to supply Britain's demand.

Chicago Running Ahead Of Big Cities In Race For Heavyweight Bout

Tex Rickard Favors Soldier's Stadium In Chicago, Seating 150,000.

Illinois Boxing Commission Understood Willing To Allow Fight.

By SID MERCER
International News Service Special Correspondent.

NEW YORK, July 25.—Chicago first and running strong.

New York second and dropping back.

Philadelphia a poor third.

That's the alignment of municipal entries in the rich Tunny-Dempsey stakes. Chicago is leading by a mile, with a stadium that can seat 150,000 persons and no check on prices.

New York is practically out of the running. Even if the boxing commission cut loose with a $50 top spurt that may not decide the race.

It should have been done before Chicago got off so far in front.

Philadelphia is just in there running for third place.

There will be no question as to where Tex Rickard will make his next pitch if he passes up New York. He will go where the pickings are choicest—Chicago.

Amusing Situation.

Call him a customer, sucker, fish or whatever you will call him the fight fan is a glutton for punishment.

He may rail against high prices, ticket scalping, poor seating arrangements, overrated fighters, unsatisfactory endings and all that stuff, but just try to deny him the privilege of witnessing the next big boxing spectacle and he will roll all those protests into one bundle and fling it at whatever authorities are trying to "protect" him by barring a big fight so he won't have to be taxed for it.

Now that the September heavyweight championship show looms up a big show for Chicago, the indignant New Yorker wants to know why is writing letters. He wants to be protected against making an expensive trip to Chicago.

For one thing, he cannot see why the prize show should not go to the largest city. He does not appreciate the efforts of the New York boxing commission in keeping prices down and big fights out of the state.

Chicago Means Business.

It is a question whether the abolishment of price fixing by the boxing commission will keep the Dempsey-Tunney bout in New York.

Chicago means business, has offered many inducements and Rickard is dealing with men who represent civic bodies—not politicians and professional promoters. Chicago wants the fight to get on the map as a boxing centre—as a spectacle that will bring thousands of visitors to the city from all over the middle west.

If the New York boxing commission insists on limiting Rickard to ringside prices that puts big premiums on ticket scalping there will be no fight here. Tex makes that quite plain.

"I can't afford it," he says, "my obligations will be well over $1,000,000 and I could hardly break even with a capacity crowd at the Yankee stadium at the prices I charged for Dempsey and Sharkey. I want to show a profit of course. I have never heard that there is a law against a man with a commodity to sell choosing his own market."

Secretary of State Robert H. Moses has been quoted in support of George E. Brower, who maintains that the commission is exceeding its legal power in fixing price limits. Brower is a member of the commission, but in the minority on many issues. William Muldoon is the stickler for cheaper ringside accommodations at big fights.

Confers With Tunney.

After a conference with Tunney last Saturday, Rickard decided to await local and western developments before announcing the date and location of the title bout. He had intended to make this announcement after next Tuesday's meeting of the boxing commission, but now says he will wait until August 5.

There are two reasons for this delay, one is that there are several kinks to be ironed out in the Chicago situation—principally the matter of prices. The Illinois boxing commission has a limit of $10 but is not definitely omitted to it.

It is believed that Rickard will have his show-down here tomorrow. He may go before the commission and ask for a revision of ticket prices. Possibly before that time Secretary of State Moses will have communicated his views officially to the boxing commissioners. This commission is under the jurisdiction of the state department.

When Rickard asked for a $27.50 "top" for Dempsey and Sharkey, Commissioner Muldoon inquired if Tex would be satisfied with the same scale for a title fight.

"I guess I'd have to be," replied Tex.

If Muldoon reminds him of that incident Rickard will reply that he is satisfied if it is all he can get here but he won't be contented. His answer will be to withdraw to Chicago.

Football Tickets Placed On Sale Starting Today

Season Ticket Sale For Franklin Stadium Opens Today

While the grid season is yet several weeks away, and baseball is having the big play at the present time, the directors of the New Castle High football team have issued season tickets for the coming year.

The season tickets for the football games at Franklin Stadium this fall will go on sale today at the Sporting Goods Store, was the announcement from Faculty Manager Ralph H. Gardner.

Upwards of 1,000 tickets have been printed and placed on sale. The holders of previous season tickets will have the privilege of obtaining the same seats until August 5. After August 5 the tickets will be sold regardless and all choice seats untaken at that time will be given out.

The seats for the nine home games will be $10, as in former years. The seat sale was given over to the Sporting Goods Store this year in order that the fans would have a more convenient place to procure the pasteboards.

New Castle High's grid schedule this fall calls for 10 games, nine at home and one away. The program shapes up as the strongest in the history of the school. First there, first served in the season tickets. Get yours early.

Ruth And Gehrig Are Again Tied For Homer Honors

(International News Service)

New York, July 25.—Ruth and Gehrig, the home run twins of the Yankees, again are tied in the great home run sweepstakes today, with 31 circuit blows apiece. Ruth hit No. 31 yesterday, but is still far behind his 1921 record.

Hack Wilson of the Cubs took second place in the National League home run race by walloping his 17th homer.

L. W. McClung, secretary of the Lawrence County Sportsmen's association, today announced that a shipment of 20,000 bass has been received from the Mount Pleasant hatchery. This is the largest shipment ever received here. The fish will be placed in various streams in Lawrence county.

A Pair Of Spectacles

By Feg Murray

The popular conception of a Pirate is a fierce looking individual with bristling mustaches, a flaming bandanna around head or throat, earrings, patch over one eye, knife held between battered teeth and skull and cross bones on his hat, or else tattooed on his hairy chest or arm. But behold two modern Pirates, mainstays of the Buccaneer pitching staff, who have been the greatest of help to the world's champions of 1925 in their plucky fight to regain the "buried treasure" of a pennant which they held two years ago.

Instead of having one eye they each have four! Who ever heard of a four-eyed Pirate! But such is the case, and these two horn-rimmed Bucs had pitched and won ten games apiece before the season was half over. Manager Donie Bush should look around for some more bespectacled athletes.

The Pirates are the only team in the league who have two four-eyed players. The Cardinals have Toporcer, and Brooklyn has Plitt. Many other men have overcome the handicap of poor eyesight in sports, of course, even wearing "cheaters in such violent games as football, basketball and hockey. But one team to have two bespestacled pitchers, both so capable, is most unusual.

Lee Meadows' record is too well known to require much comment. He helped the Pirates win the pennant with 19 victories and 10 defeats, and last year won one more and lost one less than he did in 1925.

Carmen Hill was purchased from Indianapolis of the American Association, for whom he won 21 games last year. "Thar's gold in them Hills," Donie Bush must have said—at any rate the $40,000 or so in cash and players that the Pirates are reported to have paid for the second half of their "Pair of Spectacles" seems to have been a good investment.

Feg Murray Says—

Golf, according to an archaeologist, was played by the ancient Greeks. The famous statue of Venus de Milo may now be reconstructed, with the arms holding a golf club in a perfect follow-through position.

Pirates-Giants Split Twin Bill

Hill And Waner Boys Feature Pirate Victory 11 To 6.

PIRATES CRACK IN LAST GAME

NEW YORK, July 25.—The Pirates and Giants split a twin bill yesterday afternoon, the Pittsburghers taking the opening game 11 to 6 but lost the second , 9 to 3. Hill pitched for the Pirates against Barnes, Clarkson and Thomas in the first game and Dawson gave way to Cvengros against Grimes for New York in the last setto.

Paul and Lloyd Waner connected with the New York hurlers for a dozen safe blows in the two contests, each getting six hits and in the field they played a good game. In the first game Paul connected for four and Lloyd for three hits. Paul also saved what looked like a home run in the first game when he caught Ott's liner to right field. Hill outpitched the aggregation of Giant hurlers and after the sixth there was small chance of the Giants winning.

Blow In Seventh

The Pirates resistance cracked behind Dawson in the second game and Manager Buch injected his reserves, Cronin, Rhyne, Groh and Brickell into the game. When Groh stepped upon the field the Giants fans gave him a big reception.

The Giants scored two runs from scratchy hits in the third and up to the seventh Dawson staged a pretty pitching duel with Grimes. In this session the crack came when Traynor made a wild heave and Cronin went to second. Hornsby walked and Grantham muffed a throw on Terry's and the bases were filled. Jackson hit a double and while only three hits were made in the inning seven Giants crossed the plate.

The Pirates sent Cvengros to relieve Dawson but the work had already been accomplished and though the Pirates rallied in the first of the eighth and scored three runs they could not overcome the nine runs that the Giants had chased across the plate. The scores:

Looking Back

By JOHN SORDS

John McGraw's jubilee day was anything but a memorable one for "Bullet Joe" Bush. Among other things the Giant manager included in his celebration was the handing of an unconditional release slip to the old star. Which recalls Joe's first world series experience against this same McGraw.

In 1913 Bush was a mere inexperienced pitcher as far as series games go. And although he had pitched good ball all season no one reckoned him a possible starter in the big series. But Connie Mack put one over on the fans and started him on the mound in the third game at the Polo grounds Oct. 9. He proceeded to stand the opposition on their heads and win the game, the second of the series for the A's.

Altogether Bush was in on world series cuts just five times. With the Athletics in 1913-14, the Red Sox in 1918 and the Yanks in 1923-24. That's tough.

Cleveland's Fans See Indians Slide To Tail End Place

By C. D. HAWKINS
International News Service Staff Correspondent

CLEVELAND, July 25.—The Cleveland American League baseball team will apparently fight it out this season with the Boston Red Sox—for the lower rung of the ladder. At present the Indians need to lose a few more games before the Bean Eaters lose out, and, at the rate recently traveled by the Clevelanders, it is not at all unlikely that Boston may soon ascend from the bottom of the junior major league circuit.

General gossip of fans here blames Jack McAllister for the poorest showing the Cleveland entry has made in years.

Fans, lamenting the loss of Tris Speaker, are beginning to believe that Cleveland was a "one-man team" after all—that is to the extent that one man wielded the magic power of making the team work together. It would be unfair to say that some of the members of the tribe were not doing their level best in each and every game. On the other hand, there are several who are inclined to show listlessness and the spirit of "ok if we win; ok if we don't."

Individual spirit is plentiful; team spirit at a minimum.

Where the real fault lies it is not possible to ascertain yet—but it is certain that the 1927 Indians are no relation to their brothers who wore the war paint in 1926.

"Irish" Meusal Is Given His Release

(International News Service)

NEW YORK, July 25.—Emil (Irish) Meusel, Brooklyn outfielder, who formerly played with the Senators, Phillies and Giants, has been released unconditionally. After graduating from the Pacific Coast League Meusel played in four world's series.

Pirates Remain In First Place

Pirates And Cubs Both Divide Double Bills In Sunday Games.

DETROIT TIGERS DISPLAY CLASS

By LES CONKLIN.
International News Service Staff Correspondent

NEW YORK, July 25.—The Cincinnati Reds, the New York Yankees and the Detroit Tigers are making the best records in the majors these days while the White Sox, Athletics and Brooklyn Robins are making the worst showings. The Reds and Yanks both have won six of their last seven games.

Although the Pirates have won only six of their last 11 games they have taken first place away from the Cubs, who went to pieces completely on their eastern trip.

The Cubs, who had not lost to Brooklyn all season, dropped a 3 to 2 contest to the Robins yesterday in ten innings. The Bruins copped the nightcap however 7 to 1.

The firm of Waner Bros., manufacturers of base hits, is keeping the Pirates at the top. Paul and Lloyd each collected six singles as the Bucs split a twin bill with the Giants. Pittsburgh scored 6 runs in one inning in taking the opener 11 to 6 while the Giants crossed the plate seven times in one frame in the nightcap. New York won the second game 9 to 3, Pittsburgh making five errors.

Cincinnati stymied the Cardinals 9 to 4 and advanced to sixth place.

High scoring honors for the day went to the Senators who scored nine runs in one inning in swamping the Browns 14 to 6. Zachary beat his former mates while General Crowder who used to pitch for Washington was shelled off the mound by the Nats in the sixth.

Babe Ruth was the whole noise as the Yanks nosed out the White Sox 3 to 2. He clouted a triple and his 31st homer, tying Gehrig.

The Indians went off the reservation and scalped the Athletics twice 9 to 6 and 5 to 2. Ty Cobb went hitless in nine times at bat.

The Red Sox trimmed the Tigers 8 to 7, shattering Detroit's winning streat of five games.

The Braves and Phillies did not play.

Dr. W. W. Horner Is Winner On Saturday

Weather Conditions Keeps Down The Number Of Participants

Dr. W. W. Horner was the winner in the sweepstake golf event held Saturday afternoon at the course of the New Castle Field Club. He turned in a net score of 75, one stroke better than George S. Long, runner-up in class A. James M. Smith Jr. won in the second division with a net score of 70. A three-quarter handicap prevailed.

The players, gross scores, handicaps and net scores follow:

Cuban Giants Are Defeated By Locals

The New Castle-Youngstown team defeated the famous Cuban Giants 9 to 3 in a game played at Idora park, Youngstown, on Sunday afternoon.

Jamieson was on the mound for the locals and came through with a brilliant exhibition. Hunt, the sensational young shortstop, featured the game with a home run drive.

Church League Games Tonight

Two fast games are billed tonight in the New Castle Church League. The games will start at 6:30 o'clock, daylight savings time.

The First Christians will battle the First Baptist boys at Colonial Field. The Central Christians and Central Presbyterians are billed to tangle at the Lehigh Field.

SPORTS DONE BROWN

By NORMAN E. BROWN.

It has always been a much mooted question as to whether the supremacy in batting in the American league was due to better pitching in the National, a difference in the ball used or the prevalence of good hitters in the younger league.

Whatever the reason the American league is running away with the batting honors this year as never before. The Yankee sluggers alone draw the curtain of obscurity over the National league batsmen. Ruth, Gehrig and Bob Meusel all boast batting averages from 20 to 50 points higher than the leading hitters in the old circuit.

Rather recent averages showed Harper and Hornsby of the Giants batting .354 and .344 respectively, to lead the National league pack. Gehrig was a point above .390, Meusel hitting .375 and Ruth .362.

Hornsby and Harper between them had collected 23 home runs. Gehrig and Ruth had mauled out 60 or better. Meusel had added five to the collection. The double and triple totals ranked about in proportion to the other averages and totals.

And the relative strength of these hitters just about typifies the difference.

The figures will be used next winter to substantiate various arguments including the statement that the "rabbit ball" is still in use in the American league.

James Blanning Now At West Point

James C. Blanning, son of Mr. and Mrs. E. J. Blanning of Highland avenue, graduate of New Castle high school in the class of 1927, who was successful several months ago in receiving the appointment to West Point from this congressional district is now at the Academy. He entered the institution on July 1 after having passed the required tests and examinations.

His brother E. Joseph Blanning Jr., who has just completed his first year in the United States Naval Academy at Annapolis is now on a western cruise on the United States battleship Nevada.

To Question Girls In Bank Robberies

(International News Service)

PITTSBURGH, July 25.—Federal authorities today planned to take Betty Johnson, 20, and Virginia Williams, 24, to Bufaflo, N. Y., to answer charges of bank robberies involving their escorts, Robert and Howard Hostetter, arrested in Buffalo last night. The girls were arrested here as they were about to board a train for Butler, Pa.

The two Hostetters, detectives said were wanted in Indianapolis in connection with the shooting of Deputy Sheriff Bell of Marion county a few years ago.

Earlier reports stated the two couples were wanted in connection with a safe robbery in South Bend, Ind.

Miss Helen Wills is the first American woman to win the tennis championship at Wimbledon since May Sutton's second success 20 years ago.

Dates Announced For County Fairs

Records Expected To Be Broken This Year In Attendance And Exhibits.

Exposition Managers Report More Interest Being Taken Than Heretofore.

With the advent of August, the annual county fair season for Pennsylvania and the adjoining States will open once more and continue in full blast throughout the fall period. Exposition managers predict that all records for attendance will be broken this year, reports of prosperous times being general and more interest being taken in these shows than ever before.

Preparations for the fairs have been under way for months and the exhibits, as well as the crowds, are expected to be greater than ever. At many of the expositions, the horse racing will as usual prove a popular drawing attraction, while automobile contests and aeronautic displays are to be featured at others.

Some of the fairs listed for this State with the dates inclusive for the expositions are:

Allentown—Allentown Fair, September 20-24.

Bedford—Bedford County Agricultural Society, September 27-30.

Sacco-Vanzetti Continue Hunger Strike In Jail

Vanzetti Breaks Over And Takes Food, But Sacco Declines Victuals

(International News Service)

BOSTON July 25.—Unsuccessful in his effort to lure Nicola Sacco into eating by doing so himself, Bartolomeo Vanzetti was apparently renewing today his hunger strike of 168 hours which he terminated yesterday in Charlestown state's prison. Both Sacco and Vanzetti declined today to partake of breakfast.

The two Italian radicals are awaiting execution on August 10 for the murder of a South Braintree paymaster and a guard in 1920.

Told that Sacco was becoming deranged mentally as a result of his hunger strike, Vanzetti agreed yesterday to take food in a hope that his example would be followed by the former. The action of Vanzetti had no effect upon Sacco and Vanzetti immediately resumed his strike.

Warden William Hendry announced this morning that both men were still in apparently good health and had shown no outward signs of collapse.

Naval Aviator Establishes New Altitude Record

Lieutenant Champion Climbs To Altitude Of Between 43,000 And 45,000 Feet

(International News Service)

WASHINGTON, July 25.—Lt. C. C. Champion, Jr., crack navy flyer, this morning broke the world's altitude record.

The altimeter on his land plane showed that Champion went up between 43,000 and 45,000 feet. The present record is 40,820 feet, held by Calizzo, a Frenchman. The altimeter will be checked by the bureau of standards before the record is officially credited.

After making the record, Champion had a narrow escape when a cylinder head broke and he made a forced landing near Bolling Field. He maneuvered the plane successfully however, and was uninjured. The plane was not materially damaged.

On May 5, Champion established a new altitude record for seaplanes when he climbed 33,455 feet.

Nanticoke Coal Company Miners Out On Strike

(International News Service)

WILKES-BARRE, Pa., July 25. — With five hundred employes of the West Nanticoke Coal company on strike here today after a dispute over the placing of larger coal cars in service at the mine, strike leaders planned a mass meeting this afternoon, at which union officials were to address the men.

The men charged that the new cars put into service by the company hold several hundred pounds more coal, and since they are paid on a car basis instead of on tonnage, the men refused to load the new cars without a pay increase.

Weather Reports For Mail Fliers In Valley Region

(International News Service)

PITTSBURGH, Pa., July 25.—Beginning August 1, reports on flying conditions over the treacherous Beaver Valley, for the benefit of air mail pilots between McKeesport, Pa., and Cleveland, Ohio, will be rendered by W. Edward Eakin, of Beaver Falls, Pa., it was announced here today by William Brotzman, chief of the U. S. weather bureau here.

Eaking has been river observer at Beaver Falls for the past twenty years. He still will hold his river post, Brotzman said.

Guardsmen Given Full Equipment

(International News Service)

MT. GRETNA, Pa., July 25.—Artillerymen who make up a part of the 4,000 Pennsylvania National Guardsmen in camp here since Saturday today were issued equipment, including huge 155 millimeter howitzers, five ton tractors and other war machines.

This afternoon the citizen-soldiers, making up the second of three encampments, were to be given close order drill, followed by athletics and a evening parade. The troops heard religious services yesterday.

Start Loading Wool Tuesday

Loading of the Lawrence county wool pool, one of the largest in the state and which was purchased by the Horkheimer Bros. firm of Wheeling, W. Va., will commence tomorrow according to County Farm agent H. R. McCulloch. The loading work will take all day Wednesday too, he says.

The pool has been kept at the storehouse on Moravia street ever since it was sold and will be loaded at this place.

Girl Swimmers Set New Marks

(International News Service)

NEW YORK, July 25.—Two new swimming records were on the books today, made by New York mermaids in a water carnival at Rye, N. Y. Starting from the five-second mark, Miss Ethel McGary swam 300 meters free style in 4:23 3-4, breaking the universal long course record of 4.29 1-5.

Miss Agnes Geraghty lowered her own American record of 3:29 1-5 in covering the 200 yards breast stroke in 3:27 2-5.

When the Reading International League team dropped 31 straight games in the early part of this season it broke a record that had stood in organized baseball since 1889, when the Cleveland team of the old National League went down to defeat 24 consecutive times.

An oil company in Topeka, Kas., has installed putting greens at all its filling stations for the use of golf players.

Cash prizes and trophies to a total of almost $100,000 were competed for at the recent Bisley meeting of the British Rifle Association.

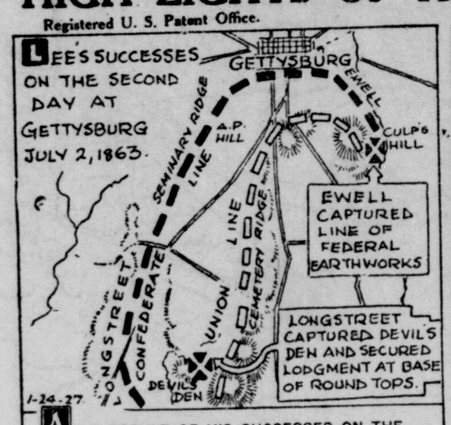
HIGH LIGHTS OF HISTORY

Registered U. S. Patent Office.

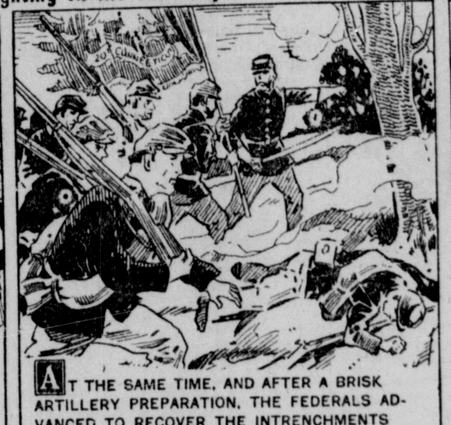
Gettysburg—Fighting on the Third Day.

by J. CARROLL MANSFIELD

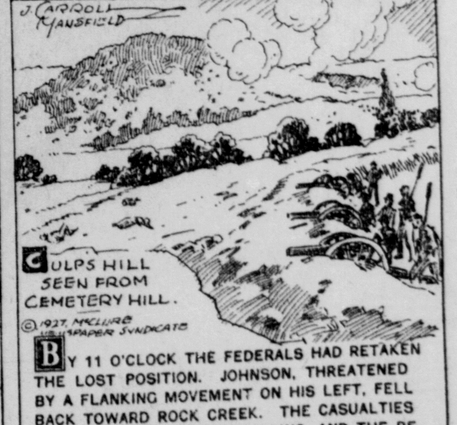


AS A RESULT OF HIS SUCCESSES ON THE SECOND DAY (JULY 2, 1863) OF THE BATTLE OF GETTYSBURG, GEN. LEE RESOLVED TO RENEW HIS EFFORTS. BOTH SIDES HAD LOST HEAVILY, BUT EACH WAS DETERMINED NOT TO RETREAT.

LEE ORDERED THE OPERATIONS AGAINST THE UNION WINGS TO BE RESUMED, AND AT DAYBREAK, JULY 3RD, EWELL HURLED JOHNSON'S DIVISION UPON THE FEDERAL RIGHT IN THE HOPE OF WINNING HIS WAY THROUGH TO THE BALTIMORE PIKE, FROM WHICH POSITION HE COULD COMMAND THE REAR OF MEADE'S ARMY.



AT THE SAME TIME, AND AFTER A BRISK ARTILLERY PREPARATION, THE FEDERALS ADVANCED TO RECOVER THE INTRENCHMENTS THAT HAD BEEN CAPTURED BY THE CONFEDERATES THE NIGHT BEFORE. THE CHARGING LINES COLLIDED AND A FIERCE AND BLOODY STRUGGLE ENSUED.



BY 11 O'CLOCK THE FEDERALS HAD RETAKEN THE LOST POSITION. JOHNSON, THREATENED BY A FLANKING MOVEMENT ON HIS LEFT, FELL BACK TOWARD ROCK CREEK. THE CASUALTIES ON BOTH SIDES WERE APPALLING, AND THE REMAINDER OF THE FORENOON THE OPPOSING FORCES RESTED ON THEIR ARMS.

N. Y. STOCKS

NEW YORK, July 25.—Stocks of the motor car manufacturing companies and the steel companies were in the forefront of a moderate forward movement of prices in the general market at the beginning of trading today. The rails were inactive though firm. But the balance of the list displayed considerable irregularity, with oils losing further ground.

There was nothing in the week-end business statements to stimulate active buying of speculative stocks. A 3-point decline in Fisher's commodity-price index showed that the trend of prices was still downward: car loadings and steel bookings of recent periods suffered by comparison with last year, and the call money rate was up fractionally at 4 per cent.

General motors carried its advance to a new record high, above 219, in active trading. Chrysler, Hudson and Studebaker were inclined to follow the lead of General motors while United States steel led a new advance in the steel shares, and established a new high for the year at 127 1-4.

Court Opinions Are Handed Down

Number of Decisions Are Made By Judge Hildebrand.

A number of opinions and orders were handed down this morning by Judge R. L. Hildebrand in cases and petitions pending before him in the Lawrence County court.

Petition of William, Ida and David Richael, children of Joseph M. Richeal, deceased, for the appointment of a guardian to take care of their share of the estate amounting to about $300 each; with $40 each yearly was approved and the Union Trust company named as guardian.

Petition of Ella M. Rowland, wife of H. M. Rowland, asking that the guardian of her husband, a person of weak mind, the Union Trust company, be authorized to permit the expenditure of $200 for the repair of a tenant house on the estate of the husband and also to pay taxes due this year, was approved by the court in an order issued today.

Petition for the private sale of property of Martha Elizabeth McKinney located in Shenango township at private sale to H. A. and Maude M. Anderson for $3,800, the purchasers to be allowed the amount of their claim for $1079.90 on the purchase price, was approved by the court. The order directs that the estate and the purchasers divide equally the taxes for the present year.

The court also approved the petition for permission to sell real estate in Ellwood City belonging to the estate of James J. Meneice, deceased, to John Meniece for $5,500 at private sale. The sale is made for the purpose of paying debts of the said estate.

In an order issued today by the court, Forest E. and Ivy Florida are directed to pay S. M. Stewart, administrator of the estate of A. M. Stewart, the sum of $299.15 subject to the adjudgment of fixed charges in payment of the balance due on one-half interest in the property located at 612 East Main street and sold on an article of agreement to Mr. and Mrs. Florida. The administrator is also directed to deliver a deed for the property to Mr. and Mrs. Florida, subject to a mortgage $1,500 held by the estate and representing that amount due on the other one-half interest in the property.

In the matter of the petition of Angelo and Elizabeth Marmo of 12 East division street for permission to adopt Samuel Ross, aged three, minor child of Mary Ross, whom they have had since he was 18 days old, an order was issued directing that a hearing on the petition be held August 29 at eight a. m., Eastern Standard time, in the county courthouse.

In an order handed down this morning in the case of the Vecto Sales Company against Andy and M. Krafft, the rule issued March 28, 1927, on the defendants to show cause why judgment should not be entered for the plaintiff for want of sufficient affidavit of defense, is discharged.

In the case of the State Workmen's Insurance Fund against the Vitale Fireworks Manufacturing Company, in which the defendant sought to have the lien filed for excess premium stricken off, the bill of exceptions was sealed for the plaintiff in an order issued this morning, meaning that the plaintiff may appeal.

In the case of the commonwealth against Clair Cumberland, charged with fornication and in which the defendant has made a motion for arrest of judgment, the court this morning issued an order sustaining the motion for arrest of judgment and the defendant discharged. The bill of exceptions is also sealed for the commonwealth, meaning that it may appeal. The order was based on the assumption that the local court is without jurisdiction or authority in the case at hand.

In the petition of Edson Company of Youngstown, O., that it be awarded the amount of a lien held by the company against the Ford coupe seized while in the possession of John Boron and while being used for the transportation of liquor, the court directed that a hearing be held August 1, 1927. The amount of the claim is $105.

Petition of J. C. Parker of Ellwood City for permission to sell an automobile left at his place of business for repairs by the supposed owner, Clark McConnell, was granted by the court today. Mr. Parker claims $57.95 for repairs made and $72 for storage. The sale will be held August 22, 1927.

NO TRUTH IN REPORT BEING CIRCULATED

A rumor to the effect that the New Castle plant of the National Radiator company was closing down, and thus throwing over 300 men out of work, was effectively squelched today.

When questioned, officials declared that the rumor is not true. At the present time the radiator company employs about 325 men, and the plant is running normally.

The report was spread because a few extra men had been employed in the construction of a new radiator unit, and when this work was finished, they were let go. Plant officials can think of this as the only reason for the start of the rumor.

After dealing with mortals, a promoter of wildcat stock must get impatient for fish to bite.

The Reward for Investing in REAL ESTATE

—Profit—

EX-PRESIDENT Grover Cleveland once said, "No Investment on earth is so safe, so sure, so certain to enrich its owner as undeveloped realty. I always advise my friends to place their savings in realty near some growing city. There is no such savings bank anywhere."

The rise in real estate values has been the basis of more fortunes than any one other form of investment. Inherently sound, unmindful of every little business flux, real estate progresses steadily, sometimes spectacularly, toward the goal of profit. Offerings under our jurisdiction have had a remarkable record of success.

Schumann-Heink Returns To America

Reaches New York Today From Abroad; Expects To Again Tour U. S.

(International News Service)

NEW YORK, July 25.—"I am still the war horse, champing at the bit. I feel as young as Lindbergh," said Mme. Ernestine Schumann-Heink today on returning aboard the Hamburg-American liner Hamburg from her first visit to Germany and Austria since the World war.

The diva celebrated her 66th birthday in Leipsig, June 15, by singing at the wedding of her granddaughter, Gertrude Greif, to Dr. George Schlegel.

"I visited most of my old friends of childhood, but the visit was at the cemetery," Mme. Schumann-Heink said sadly.

After a visit of several weeks at the Buckingham apartments here, the singer will go to her home in Coronado, Calif., from where she will begin an eight months tour giving 70 concerts.

Mme. Schumann-Heink said she will be heard this season with the Metropolitan Opera company and will sing at Christmas time in Hansel and Gretel to an audience of children.

"Somehow, I cannot feel old. Age is something of the mind. I'll be the war horse to the end," the singer said cheerfully.

NEW CASTLE DRY GOODS CO.

It's Difficult To Qualify As Secretary To President

By CHARLES P. STEWART
Exclusive Central Press Dispatch to New Castle News.

WASHINGTON, July 25.—Unless nature especially designed him for it and early training has improved on nature's handiwork, the secretary to the president of the United States has one of the meanest imaginable jobs.

He not only must have precisely the right qualifications for his post. He must have just the right limitations, too.

He must have a great man's ability but none of his ambition.

Without super-ability, he's no good as a presidential secretary. With ambition, which he must keep corked up all the time, he's bound to be miserable.

Ambitionless great men are scarce.

* * *

Thus it's easy to believe reports that Everett Sanders is fed up with his secretaryship to President Coolidge and wants to retire, to go back to Indiana to practice law.

Indeed, it's easy to believe that he's anxious enough to quit so that he doesn't particularly care what he does next.

Sanders was meant for bigger things than being a glorified stenog.

* * *

A presidential private secretary has got to know rather more about the minutia of politics than the president himself. If the president makes the least little bit of a slip, his secretary must be on hand instanter to set him right.

He must be a walking "Who's Who".

As a diplomat, he must be smoother than silk.

His duties are harder than a galley slave's and he must be subject to call 24 hours a day and seven days a week.

But he must efface himself.

The limelight's all his boss'. He must keep strictly outside the magic circle—in the shadow

Making himself conspicuous—getting himself talked about as "astute"—letting it leak out that sometimes he slips in a word of advice—above all, giving the slightest impression that he's "influential"—in a presidential private secretary these are unpardonable sins.

As for holding an opinion, handing out an interview or trying to grab off a few crumbs of publicity for himself—oh, gee!

* * *

Now a man with brains enough to fill any place in the cabinet—which is what a first class presidential secretary imperatively needs—generally likes a little credit of his own occasionally.

Either he lacks the brains or he writhes and squirms.

There are exceptions—Dan Lamont, but he was Grover Cleveland's personal friend—George B. Cortelyou, but he rose from a stenographer's desk and was being promoted all the time—Joe Tumulty, but Woodrow Wilson caught him so young that he'd never known any other life.

* * *

Sanders had been a Hoosier politician of considerable consequence, a congressman and a popular, noticeable one, a vice presidential possibility.

The presidential's private secretaryship undoubtedly feels to him a good deal like working in a Ford factory.

Working for President Coolidge is a lot like it, in fact. His private secretary all but has to punch a clock. He has to "know his place". He has to get used to being bawled out.

Bascom Slemp couldn't stand it.

All the indications are that the "help wanted" sign will be hanging out again soon over the White House executive offices door.

Young People's Council Plans For Annual Picnic

Event Will Take Place Friday, September 2, at Elliott's Mills

The Inter-Sunday school council held an important session Sunday at the Y. W. C. A. Vice President, Claudia Boughter, was in charge.

One of the actions of the council was to accept Rebecca Gwin's invitation to hold the annual picnic at Elliott's Mills, beyond Harlansburg. After this preliminary arrangements were made for the outing which will be held Friday, September 2. The following committee were appointed: general chairman, T. J. Davies; menu committee, Claudia Boughter, chairlady, Henry Brenneman, Catherine McGrath, Arthur Bratschie, Henrietta Campbell, Austin Cowmeadow, Elizabeth McCarthy and Walter McGrath; table committee, Kerwin Hilbert, Marjorie Eell, Lester Maxwell and Dorothy Depp; baseball committee, Chester Shaffer, Clarence Porter, Clarence Bratschie and Kerwin Hilbert; program committee, Ethel Brewster, Vera Klink, Vernetta Cowan, DeWayne Glenn and Mary Elizabeth Sharp; transportation committee, Lyle McGrath, chairman, Al Bauman, Jr., Frank Brenneman and Charles Hunter.

Henrietta Campbell was the devotional leader of yesterday's session and Margaret Cowan was the pianist
